Congratulations!
You are now the owner of this wonderful Zojirushi Home Bakery Supreme® Breadmaker. We are confident that it will give you top performance and optimum satisfaction for many years. To ensure this, please read and follow this instruction manual carefully. It is also filled with great recipes to get you started, from breads to cakes to even our Meatloaf Miracle. Enjoy!

SAVE THESE INSTRUCTIONS

THIS APPLIANCE IS FOR HOUSEHOLD USE ONLY.

Note:
A. A short power cord is provided to reduce the risk resulting from becoming entangled in or tripping over a long cord.
B. Extension cords are available and may be used if care is exercised in their use.
C. When an extension cord is used:
   (1) The marked electrical rating of the extension cord should be at least as great as the electrical rating of the appliance, and
   (2) The longer cord should be arranged so that it will not drape over the countertop or table where it can be pulled on by children or tripped over unintentionally.

This appliance has a polarized plug (one blade is wider than the other). As a safety feature, this plug will fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not attempt to defeat this safety feature.

SPECIFICATIONS

Power consumption: Heater: 600W
Power consumption: Motor: 100W
Power supply: 120V, 60Hz
Dimensions: 17”x10”x12”
Weight: 17lbs.
**IMPORTANTES MESURES DE SÉCURITÉ**

Pour utiliser des appareils électriques, il faudrait toujours prendre les précautions de base, y compris les suivantes:

1. Lisez toutes les instructions.
2. Ne touchez pas les surfaces qui peuvent être chaudes.
3. Utilisez les poignées ou les boutons.
4. Pour se protéger de secousses électriques, n'immergez pas le câble, la fiche ou l'appareil à faire du pain dans de l'eau ou tout autre liquide.
5. Surveillez bien les enfants s'ils utilisent un appareil ou s'ils se trouvent à proximité d'un appareil en marche.
6. Débranchez le câble d'alimentation secteur lorsque l'on n'utilise pas l'appareil, ou avant de le nettoyer.
7. Laissez l'appareil refroidir avant de le manipuler ou de retirer n'importe quelles pièces, et avant de le nettoyer.
8. Appareils portatifs. Ne faites pas fonctionner l'appareil si le cordon ou la fiche sont endommagés, si l'appareil ne fonctionne pas correctement, s'il est tombé ou s'il a été endommagé. Confiez le service de réparation recommandé le plus proche tout examen, réparation ou réglage électrique ou mécanique de l'appareil.
9. L'utilisation d'équipements auxiliaires non recommandés ou vendus par le fabricant de l'appareil risque de provoquer des blessures.
10. N'utilisez pas l'appareil à l'extérieur.
11. Ne laissez pas le cordon pendre par-dessus le bord d'une table ou d'un comptoir et assurez-vous que le cordon n'est pas en contact avec des surfaces chaudes.
12. Ne placez pas l'appareil près d'un brûleur à gaz allumé ou d'un élément électrique ou tension ou dans un four allumé.
13. Soyez très prudent en déplacant un appareil qui contient du liquide chaud.
14. Commencez toujours par brancher le câble à l'appareil et seulement ensuite ce câble à la prise murale. Pour débrancher, appuyez sur la touche RESET et retirez la fiche de la prise murale. Ne tirez jamais sur le câble.
15. N'utilisez l'appareil que pour la fonction à laquelle il est destiné.
16. Évitez de toucher les pièces mobiles.
17. Utilisez un courant de 15 ampères ou plus.
18. N'utilisez qu'un courant électrique AC de 120 volts.
19. Ne pas gratter, endommager, modifier ou courber, tirer, plier et torde de force le cordon d'alimentation.
20. Ne pas placer l'appareil sur des surfaces instables ou des surfaces vulnérables à la chaleur.

**CONSERVEZ CES INSTRUCTIONS**

Cet appareil est réservé à l'usage domestique.

**Nota**

A. Un câble d'alimentation secteur est fourni pour diminuer les risques provenant d'un emmèlement ou d'un trébuchement sur un câble plus long.
B. Des câbles de rallonge sont disponibles et peuvent être utilisés si l'on prend garde lors de leur utilisation.
C. Lorsqu'un câble de rallonge est utilisé:
   1. La puissance électrique indiquée sur le câble de rallonge devra être au moins aussi élevée que celle de l'appareil, et.
   2. Le câble de rallonge devra être disposé de telle sorte qu'il ne recouvre pas le dessus d'un comptoir ou d'une table d'où il risquerait d'être tiré par un enfant ou sur lequel on pourrait trébucher involontairement.

**SPÉCIFICATIONS**

Puissance: Circuit de chauffage: 600W
Consommation: Moteur: 100W
Tension: 120V, 60Hz
Dimensions: 43x25x30cm
Poids: 7.8 kg

**HANDLING INSTRUCTIONS**

**How to remove the Baking Pan**

Grasp the Baking Pan’s shorter Flanges and pull toward you to un latch it. Then lift to remove. Use oven mitts for removing a hot Baking Pan.

**How to attach the Kneading Blade**

Please see the illustration above and make sure each Kneading Blade is attached correctly on the Rotating Shaft. The Kneading Blades are designed to fit loosely, and may rotate. This does not indicate a defective Kneading Blade or Rotating Shaft.

**How to Install the Baking Pan**

Hold the Baking Pan’s shorter Flanges and place it right in the center of the oven cavity. Press down until it clicks into place.
**CONTROL PANEL**

**CRUST CONTROL button**
Use this button to choose the crust color from LIGHT, MEDIUM or DARK (for BASIC, QUICK, CAKE and HOME MADE courses). See page 11.

**TIMER button**
Use this button to set the Timer. The Timer delays the completion of the bread or dough course in 10-minute increments, up to 13 hours. See bottom of this page.

**START/RESET button**
Use this button to start a course or the Timer. Hold the button to cancel a course, or when the course completes. The course will not be cancelled unless the button is held and the Home Bakery beeps.

**SELECT COURSE button**
Use this button to choose the dough preparation / baking course.
- BASIC: For baking basic breads using active dry yeast.
- BASIC WHEAT: For baking whole grain breads using active dry yeast.
- BASIC DOUGH: For preparing dough using active dry yeast.
- QUICK: For baking basic breads quicker using rapid rise yeast.
- QUICK WHEAT: For baking whole grain breads quicker using rapid rise yeast.
- QUICK DOUGH: For preparing dough quicker using rapid rise yeast.

- The illustrations used in this Operating Instructions may vary from the actual product you have purchased.

- The Timer can only be used with BASIC, BASIC WHEAT, BASIC DOUGH and HOME MADE courses.
- Do not use the Timer with recipes that use milk, juice, vegetables, eggs or other ingredients that may spoil easily.

**DISPLAY**
Indicates the setting and the time remaining until completion. The display illustrated here shows all possible displays and is for reference only. This display will not appear during actual use.

**HOME MADE COURSE**
Allows you to program up to 3 bread baking cycles to your specification. At initial setting, no cycles are programmed. See page 26.

**OPERATION LIGHT**
Turns on to indicate that the Home Bakery is in operation.

**ACCESSORIES**

**Measuring Cup:**
The measuring cup provided is the same as a standard 8 oz. measuring cup. Filled to the rim, it measures 1 cup. It may also be used to measure 1 cup of flour; however, for measuring dry ingredients (such as flour) less than 1 cup, please use a nested measuring cup.

**Measuring Spoon:**
May be used to measure yeast, sugar, salt, dry milk and spices. The large side measures 1 tablespoon; the small side measures 1 teaspoon. The half way mark on each measures one-half tablespoon and one-half teaspoon, respectively.

**HOW TO MEASURE THE INGREDIENTS**

It is most important that you measure ingredients accurately for the best possible result. Dry ingredients, especially flour need to be measured in nested measuring cups (not provided). They usually come in 1/4, 1/3, 1/2 and 1 cup sizes, and fit inside one another. Liquid ingredients may be measured in the provided plastic measuring cup or other measuring cups with lines marking the amount.

**Dry Ingredients:**
- Use a nested measuring cup. Spoon the ingredient into the cup filling it to overflow. Do not press or pack the ingredient, or scoop the ingredient out of a container with the nested measuring cup. Doing so may pack too much ingredient in the cup or create air pockets inside the cup, causing inaccurate measurements.
- Level off by sweeping off the excess with a knife. To measure 3/4 cup, fill and level off the 1/2 and 1/4 measuring cups. Do not try to measure 3/4 cup in a 1 cup measuring cup. Spices and small amounts of dry ingredients are measured in the provided measuring spoon. Be sure to level off.

**Liquid:**
- The liquid should be poured into the cup while the cup is placed on a flat surface and measured at eye level.
CONVENIENT FUNCTIONS & USEFUL TIPS

HOW TO TURN THE PREHEAT FUNCTION OFF

The preheat function is designed to stabilize the temperature of the ingredients prior to kneading. Before you turn the preheat function off, please keep in mind that your dough may not rise well if the ingredients or the room temperature is too cold.

- To turn the preheat function off, first select the course, then press and hold the TIME and CYCLE buttons together for at least 3 seconds until PREHEAT OFF appears in the Display.

Once the START/RESET button is pressed to start the course, PREHEAT OFF will disappear from the Display, and the breadmaker will begin the course.

- Sourdough, CAKE and HOME MADE courses do not include preheat, and therefore cannot be turned off.

- To turn the preheat function back on, press and hold the TIME and CYCLE buttons together for at least 3 seconds until PREHEAT OFF disappears from the Display.

CHARACTERISTICS OF INGREDIENTS

- **Dry yeast** feeds on sugar and ferments it, thus causing dough to rise. Dry yeast (simply dried granules of yeast) is made of tiny plants that change food (especially gluten and sugar) into bubbles of carbon dioxide. These bubbles expand, the bread rises. The recipes developed for the Home Bakery use "Fleischmann’s active dry yeast" or "Fleischmann’s rapid rise yeast". Dry yeast should be kept in the freezer or refrigerator. Please be sure that fresh yeast is used. Using old yeast is not recommended and may adversely affect the outcome of your bread.

- **Bread flour** is a type of wheat flour made from hard wheat that includes all of the gluten from the grain. Since bread flour has a higher gluten and protein content than all purpose flour, it is well-suited for use in yeast breads. Gluten gives structure and height to the loaf, thus bread flour rises better than other flours. It produces a higher loaf and bread that has a coarser texture.

- **Gluten** is an elastic protein found mainly in wheat flour (all flour contains some gluten). Gluten is an important element in all yeast breads, as it gives bread its structure or framework. Flours with a high gluten content make the best bread flours.

TIPS FOR SUCCESSFUL BAKING

1. **Ingredients**: Always use fresh ingredients.
2. **Measurements**: Measure ingredients accurately. Bread and yeast are very delicate and will not rise and bake properly if the ingredients are measured inaccurately. Follow the measuring guidelines on page 7.
3. **Liquids First**: Always place liquid ingredients in the baking pan first to allow the Home Bakery to knead properly.
4. **Room Temperature**: If the room temperature is over 77°F, we recommend using refrigerated liquids. Flour should be fresh and at room temperature.
5. **Humidity**: Humidity tends to make dough moister. Try adding an extra tablespoon of flour to improve the dough consistency. Repeat if necessary until the dough forms a nice ball.
6. **High Altitude**: For baking in high altitudes, decrease the amount of yeast by approximately 1/2 teaspoon, and decrease the sugar slightly.

BASIC / QUICK COURSE

**Basic Course: Use Active Dry Yeast**

<table>
<thead>
<tr>
<th>Preheating</th>
<th>Kneading</th>
<th>First rising</th>
<th>Second rising</th>
<th>Third rising</th>
<th>Baking</th>

</thead>
<tbody>
<tr>
<td>25-30 min</td>
<td>10 min</td>
<td>40 min</td>
<td>50 min</td>
<td>60 min</td>
<td>80 min</td>
</tr>
</tbody>
</table>

The times of the Preheating and Third Rising cycles may vary depending on the room temperature.

**Quick Course: Use Rapid Rise Yeast**

<table>
<thead>
<tr>
<th>Preheating</th>
<th>Kneading</th>
<th>First rising</th>
<th>Second rising</th>
<th>Baking</th>
</tr>
</thead>
<tbody>
<tr>
<td>5 min</td>
<td>25 min</td>
<td>40 min</td>
<td>60 min</td>
<td>80 min</td>
</tr>
</tbody>
</table>

The room is kept warm.
1 Remove the Baking Pan.
Open the Lid, grasp the Baking Pan’s shorter flanges and pull it toward you to unlatch it. Then remove by lifting it straight up.

2 Attach the Kneading Blades to the Baking Pan.
Attach the Kneading Blade to the rotating shaft and push down firmly.

Note
Be sure to attach the Kneading Blade securely.

3 Precisely measure ingredients and add them into the Baking Pan in the following order (see following pages for recipes):
(1) Water.
(2) Add flour.
(3) Add sugar, dry milk, salt and butter.
(4) Make a depression in the middle of the flour and place the yeast there. Make sure the yeast does not touch any liquid.

Note
If dry yeast contacts water, results may not be ideal.

4 Insert the Baking Pan into the unit and close the lid.
Place the Baking Pan in the center of the oven cavity and press down on it until it clicks into place. Close the Lid.

5 Plug into outlet.
3:45 shows up in the Display.

6 Select the desired course.
(1) Press the SELECT COURSE button to set the arrow (▲) to "BASIC" or "QUICK".
(2) Press the CRUST CONTROL button to set the arrow (▼) to either, "LIGHT", "MEDIUM" or "DARK" to choose the crust you want.
(3) Press the START/RESET button.
   - The Operation Light will turn on and the first cycle is shown (i.e. PREHEAT).
   - As the process continues, the indication advances from PREHEAT, KNEAD, RISE then to BAKE.
   - When it’s time to add ingredients such as raisins or nuts, the Home Bakery will beep for 30 seconds, and ADD will flash in the Display. Open the Lid and add the appropriate ingredients according to the recipe.
   - The Display will show the time remaining until completion in 1-minute increments.

7 Remove the Baking Pan.
When baking completes, beeps will sound and COMPLETE will be displayed. Press and hold the START/RESET button until you hear a beep and then open the Lid. Use oven mitts, grasp the Baking Pan’s shorter Flanges and pull the Baking Pan towards you to unlatch it. Lift to remove.

   - If the START/RESET button is not pressed:
     - The Home Bakery will automatically go into KEEP WARM to keep the bread warm for up to 60 minutes. However, the sides of the bread may concave, or the crust may become harder or darker during KEEP WARM. The bread may also become soggy.
     - Do not place the hot Baking Pan on surfaces that are vulnerable to heat as doing so may damage the surface.

8 Remove the bread.
Turn the Baking Pan over and shake the loaf out. If the Kneading Blade remains in the bottom of your loaf, allow the loaf to cool then use a plastic spoon or rubber spatula to remove the Blade.

   If the bread is difficult to remove, turn the Baking Pan on its side and wiggle the Wing Nuts (the propellers at the bottom) a few times. (Turning the Wing Nuts too much may create a large hole at the bottom of the bread.)

9 Be sure to unplug after using.
Do not tug on the Power Cord.

To use the Timer, please see “HOW TO USE THE TIMER” on page 6.
### BASIC / QUICK VARIATIONS

Recipes listed in this section were prepared for the BASIC course. By changing the amounts of some ingredients, these recipes can also be used for the QUICK course. Ingredient amounts for the BASIC course are indicated in red and those for the QUICK course in blue. Select the appropriate amounts depending on the course you’ve chosen.

TIMER Indicates that the Timer is available. The Timer cannot be used for QUICK course.

#### RAISIN BREAD
- 1-1/3 cups __________ Water
- 4-1/4 cups __________ Bread Flour
- 4 Tbsp. __________ Sugar
- 2 Tbsp. __________ Dry Milk
- 1-1/2 tsp. __________ Salt
- 2-1/2 Tbsp. __________ Butter
- 1 tsp. __________ Cinnamon
- 2 tsp. __________ Active Dry Yeast
- When bread sounds add:
  - 1 cup __________ Raisins (separate before adding)
  - 2-1/2 tsp. __________ Rapid Rise Yeast

#### RUSSIAN KULICH
- 1-1/8 cups __________ Milk
- 2 __________ Large Eggs, Beaten
- 1 tsp. __________ Almond Extract
- 4-1/4 cups __________ Bread Flour
- 2 Tbsp. __________ Sugar
- 1-1/2 tsp. __________ Salt
- 2-1/2 Tbsp. __________ Butter
- 1/2 cup __________ Stewed Almonds
- 2 tsp. __________ Active Dry Yeast
- When bread sounds add:
  - 1/2 cup __________ Chopped Dried Fruit
  - 2-1/2 tsp. __________ Rapid Rise Yeast

#### APPLE OAT BREAD
- 1-2/3 cups __________ Apple Juice
- 4-1/4 cups __________ Bread Flour
- 2 Tbsp. __________ Sugar
- 1 tsp. __________ Salt
- 1 tsp. __________ Cinnamon
- 1/2 cup __________ Oats
- 2 tsp. __________ Active Dry Yeast
- When bread sounds add:
  - 1/2 cup __________ Diced Dried Apple
  - 2-1/2 tsp. __________ Rapid Rise Yeast

#### FAT FREE APPLE OAT BREAD
- 1-2/3 cups __________ Apple Juice
- 4-1/4 cups __________ Bread Flour
- 2 Tbsp. __________ Sugar
- 1 tsp. __________ Salt
- 1 tsp. __________ Cinnamon
- 1/2 cup __________ Oats
- 2 tsp. __________ Active Dry Yeast
- When bread sounds add:
  - 1/2 cup __________ Diced Dried Apple
  - 2-1/2 tsp. __________ Rapid Rise Yeast

#### BASIC WHITE BREAD (1.5 lbs. SIZE)
- 1 cup __________ Water
- 3-1/4 cups __________ Bread Flour
- 3 Tbsp. __________ Sugar
- 1-1/2 Tbsp. __________ Dry Milk
- 1 tsp. __________ Salt
- 2 tsp. __________ Butter
- 2-1/2 tsp. __________ Active Dry Yeast
- When bread sounds add:
  - 1/2 cup __________ Diced Dried Apple
  - 2 tsp. __________ Rapid Rise Yeast

#### RAISIN BREAD (1.5 lbs. SIZE)
- 1 cup __________ Water
- 3-1/4 cups __________ Bread Flour
- 3 Tbsp. __________ Sugar
- 1-1/2 Tbsp. __________ Dry Milk
- 1 tsp. __________ Salt
- 2 Tbsp. __________ Butter
- 2 tsp. __________ Active Dry Yeast
- When bread sounds add:
  - 1/2 cup __________ Raisins (separate before adding)
  - 2 tsp. __________ Rapid Rise Yeast

#### CHEESE 'N ONION BREAD
- 1-1/4 cups __________ Water
- 1-1/8 cups __________ Bread Flour
- 1 __________ Large Egg, Beaten
- 4-1/4 cups __________ Bread Flour
- 2 Tbsp. __________ Sugar
- 1 tsp. __________ Salt
- 1-1/2 tsp. __________ Butter
- 1 tsp. __________ American Cheese, Shredded
- 1/2 tsp. __________ Onion Powder
- 1/4 cup __________ Shredded Cheddar
- 2 tsp. __________ Active Dry Yeast

#### SWEET BREAD
- 1-1/4 cups __________ Milk
- 1 __________ Large Egg, Beaten
- 4-1/4 cups __________ Bread Flour
- 2 Tbsp. __________ Sugar
- 1 tsp. __________ Salt
- 1-1/2 tsp. __________ Butter
- 1 tsp. __________ Orange Peel
- 2 tsp. __________ Active Dry Yeast

#### CHOCOLATE BREAD
- 1-1/4 cups __________ Milk
- 1 __________ Large Egg, Beaten
- 4-1/4 cups __________ Bread Flour
- 2 Tbsp. __________ Sugar
- 1 tsp. __________ Salt
- 1-1/2 tsp. __________ Butter
- 1 tsp. __________ Unsalted Butter
- 2 tsp. __________ Chocolate Chips
- 3/4 cup __________ Active Dry Yeast

#### GLUTEN-FREE BROWN RICE BREAD
- 1-1/2 cups __________ Milk
- 3 __________ Large Eggs, Beaten
- 1 Tbsp. __________ Apple Cider Vinegar
- 1/8 cup __________ Vegetable Oil
- 2 Tbsp. __________ Honey
- 5-1/4 cups __________ Brown Rice Flour
- 1/2 cup __________ Corn Starch
- 1/4 cup __________ Potato Starch
- 1 Tbsp. __________ Xanthan Gum
- 1 tsp. __________ Salt
- 1 Tbsp. __________ Mix and sift A in advance.

#### GLUTEN-FREE RAISIN BREAD
- 1-2/3 cups __________ Milk
- 3 __________ Large Eggs, Beaten
- 1 Tbsp. __________ Apple Cider Vinegar
- 1/8 cup __________ Vegetable Oil
- 2 Tbsp. __________ Honey
- 5-1/4 cups __________ Brown Rice Flour
- 1/2 cup __________ Corn Starch
- 1/4 cup __________ Potato Starch
- 1 Tbsp. __________ Xanthan Gum
- 1 tsp. __________ Salt
- 1 Tbsp. __________ Mix and sift A in advance.
- 1/2 cup __________ Raisins, Chopped

Gluten-free breads contain no gluten (wheat protein) and are developed for those with celiac disease, or gluten intolerance. Please visit www.syeizuruhi.com or call Syezuruhi Customer Service at 1-800-733-6270 for more gluten-free recipes.

The times for the Kneading, Second rising, Third rising and Baking cycle may vary depending on the room temperature.

1-5 Follow steps 1-5 for BASIC / QUICK COURSE on page 10.

6 Select the desired course.

1. Press the SELECT COURSE button to set the arrow (▲) to BASIC WHEAT or QUICK WHEAT.
2. Press the START/RESET button.
   - The Operation Light will turn on and the first cycle is shown (i.e. PREHEAT).
   - As the process continues, the indication advances from PREHEAT, KNEAD, RISE, then to BAKE.
   - When it's time to add ingredients such as raisins or nuts, the Home Bakery will beep for 30 seconds, and ADD will flash in the Display. Open the Lid and add the appropriate ingredients according to the recipe.
   - The Display will show the time remaining until completion in 1-minute increments.

7-9 Follow steps 7-9 for BASIC / QUICK COURSE on page 11.

To use the Timer, please see “HOW TO USE THE TIMER” on page 6.
### HONEY WHEAT BREAD
- 1-3/4 cups Water
- 4-1/4 cups Bread Flour
- 1/2 cup Cracked Wheat
- 3 Tbsp. Honey
- 1-1/2 tsp. Salt
- 2 Tbsp. Butter
- 2 tsp. Active Dry Yeast

### ITALIAN WHEAT BREAD
- 1-1/2 cups Water
- 2-2/3 cups Bread Flour
- 2 cups Whole Wheat Flour
- 2 Tbsp. Sugar
- 1-1/2 tsp. Salt
- 2 Tbsp. Olive Oil
- 1 tsp. Basil
- 3 tsp. Active Dry Yeast
- 2 tsp. Rapid Rise Yeast

### 100% WHOLE WHEAT BREAD (100% Wheat)
- 1-1/2 cups Water
- 4 cups Whole Wheat Flour
- 2 Tbsp. Sugar
- 1-1/2 Tbsp. Dry Milk
- 1 tsp. Salt
- 1-1/2 Tbsp. Butter
- 3 Tbsp. Vital Wheat Gluten
- 2 tsp. Active Dry Yeast
- 2-1/2 tsp. Rapid Rise Yeast

### SEVEN-GRAIN BREAD
- 1-1/2 cups Water
- 4-1/4 cups Bread Flour
- 2/3 cup Seven-Grain Cereal
- 1 cup Sugar
- 2 Tbsp. Dry Milk
- 1-1/2 tsp. Salt
- 2 Tbsp. Butter
- 2 tsp. Active Dry Yeast
- 3 tsp. Rapid Rise Yeast

### PUMPERNICKEL BREAD
- 1-3/4 cups Water
- 1 cup Bread Flour
- 1 cup Whole Wheat Flour
- 1 tsp. Rye Flour
- 3 Tbsp. Molasses
- 1 tsp. Salt
- 2 Tbsp. Vegetable Oil
- 3 Tbsp. Cinnamon
- 2 tsp. Instant Coffee
- 2 tsp. Unsalted Butter
- 5 Tbsp. Vital Wheat Gluten
- 2 tsp. Active Dry Yeast

### 100% WHOLE WHEAT APPLE BREAD (100% Wheat)
- 1-3/4 cups Water
- 4 cups Whole Wheat Flour
- 2 Tbsp. Sugar
- 1-1/2 Tbsp. Dry Milk
- 1 tsp. Salt
- 1-1/2 Tbsp. Butter
- 4 Tbsp. Vital Wheat Gluten
- 2 tsp. Active Dry Yeast
- When dough becomes firm:
  - 3/4 cup Diced Dried Apple

---

**1-5** Follow steps 1-5 for BASIC / QUICK COURSE on page 10.

**6 Select the desired course.**

1. Press the SELECT COURSE button to set the arrow (▲) to BASIC DOUGH or QUICK DOUGH.
2. Press the START/RESET button.
   - The Operation Light will turn on and the first cycle is shown (i.e., PREHEAT).
   - As the process continues, the indication advances from PREHEAT to KNEAD, then to RISE.
   - When it's time to add ingredients such as raisins or nuts, the Home Bakery will beep for 30 seconds, and ADD will flash in the Display. Open the Lid and add the appropriate ingredients according to the recipe.
   - The Display will show the time remaining until completion in 1-minute increments.

**7 Remove the Baking Pan.**

1. When the course is done, beeps alert you that the dough is ready and the Operation Light turns off.
2. Press and hold the START/RESET button.
3. Remove the Baking Pan. Open the Lid and pull the Baking Pan toward you by grasping the Baking Pan's shorter Flanges. This will unlatch the Baking Pan so you can lift it to remove.

**8 Remove the dough.**

Prepare a lightly floured board. Gather the dough at the center of the Baking Pan. Remove the dough carefully by raising it gently and place it on the board. If the Kneading Blade remains in the bottom of your dough, remove the Blade.

**9 Be sure to unplug after using.**

Do not tug on the Power Cord.

**10 Shape the dough and bake.**

Shape the dough as you like and let it rise. Then bake in an oven.

To use the Timer, please see “HOW TO USE THE TIMER” on page 6.
**DOUGH / QUICK DOUGH VARIATIONS**

Recipes listed in this section were prepared for the Basic Dough course. By changing the amounts of some ingredients, these recipes can also be used for the Quick Dough course. Ingredient amounts for the Basic Dough course are indicated in red and those for the Quick Dough course in blue. Select the appropriate amounts depending on the course you’ve chosen.

**METHOD**

Follow basic steps 1-7 for making dough (see page 17).

1. Remove dough from the Baking Pan. Put into greased bowl. Cover with plastic wrap. Place in refrigerator and allow to rest 30 minutes.
2. Roll dough into 20 x 14 in. rectangle on a lightly floured surface. Using about 7 Tbsp. of softened butter, butter 2/3 of dough while leaving 1/3 of dough unbursted.

3. Fold dough into thirds and repeat step 2 twice more. Add flour to rolling surface as needed to prevent sticking. Cover completely with plastic wrap and place in refrigerator for 1 to 2 hours or overnight.

4. Cut dough into 3 pieces and roll each piece to 1/4-in. thick. Cut dough into triangles. (Wide end should be about 3-1/2 in.)

5. Roll each triangle loosely starting from the wide end, lay with seam-side down. Curve ends.

6. Place on greased baking pan. Allow to rise for about 40 to 50 minutes or until size doubles.

7. Brush lightly with egg glaze.
8. Bake at 375°F for 10 to 15 minutes, or until golden brown and flaky. Makes 24 croissants.

**CRUSTY ROLLS**

Prepare pizza dough with beer.
1. Put dough on lightly floured board, divide into quarters, cut each quarter into 6 pieces.
2. Shape each piece into flattened oval-shaped ball.
3. Dip bottom of dough balls in coarse meal and place on greased baking sheet about 1-1/2 in. apart.
4. Slash tops of rolls with sharp knife or razor blade.
5. Cover dough lightly and allow to rise 30 minutes.
6. Brush rolls with one egg yolk beaten with 1 Tbsp. water.
7. Bake rolls at 400°F, 15 to 20 minutes.

**SOFT PRETZELS**

Prepare pizza dough with beer.
1. Put dough on lightly floured board, divide into 8 equal portions.
2. Cut each portion again into 6 equal portions. Roll each piece of dough into pencil-thin line about 20-in. long.
3. To shape into pretzel, pick up ends of line in each hand and curve into circle, crossing end at top.

4. Twist ends once and lay down over bottom of circle.

5. Place about 1 in. apart on well-greased baking sheets. Brush with beaten egg and sprinkle lightly with coarse salt, poppy seeds or sesame seeds.

6. Bake at 400°F, 10 to 20 minutes.

7. For crispy pretzels, place cooked pretzels in cool oven on ungreased baking sheet. Allow to stand 3 hours or overnight. This process makes pretzels dry and crunchy.

**PIZZA DOUGH WITH BEER**

1-1/3 cups Olive Oil
1-1/2 Tbsp. All Purpose Flour
3-3/4 cups Water
3 Tbsp. Sugar
1 tsp. Salt
1-1/2 tsp. Salt
2 tsp. Active Dry Yeast

**THIN-CRUST PIZZA**

1. Flour hands lightly. Shape dough into a ball. Divide ball in quarters. Press each quarter of dough into greased, 12-in. pizza pan, forming 1-1/2 in. edge.
2. Brush crust with oil. Cover and let stand 15 minutes.
3. Spoon tomato or pizza sauce over dough, top with cheese and topping of your choice.
4. Bake 25 to 30 minutes at 400°F or until cheese gets bubbly and crust is golden brown. Makes four 12-in. pizzas.

**THICK-CRUST PIZZA**

1. Flour hands lightly. Shape dough into a ball. Divide ball in half. Press each dough into greased, 12-in. pizza pan, forming a high edge.
2-4 Follow steps 2-4 for the Thin-Crust Pizza recipe. Makes two 12-in. pizzas.

**TRADITIONAL PIZZA DOUGH**

1-1/2 cups Bread Flour
3-3/4 cups Water
1-1/2 Tbsp. Sugar
1 tsp. Salt
1-1/2 tsp. Olive Oil
2 tsp. Active Dry Yeast

**EGGGLACE**

1. Large Egg, Beaten
2 tsp. Rapid Rise Yeast

**METHOD**

Follow basic steps 1-7 for making dough (see page 17).

1. Remove dough from the Baking Pan. 2. Select shape variation of your choice.

**PIZZA DOUGH WITH BEER**

1-1/3 cups Flat Bread
3-3/4 cups All Purpose Flour
3 Tbsp. Sugar
1 tsp. Salt
1 Tbsp. Butter
1-1/2 tsp. Rapid Rise Yeast

**METHOD**

Follow basic steps 1-7 for making dough (see page 17).

1. Remove dough from the Baking Pan. 2. Select shape variation of your choice.

**PIZZA DOUGH WITH BEER**

1-1/3 cups Olive Oil
1-1/2 Tbsp. All Purpose Flour
3-3/4 cups Water
3 Tbsp. Sugar
1 tsp. Salt
1-1/2 tsp. Salt
1-1/2 tsp. Active Dry Yeast

**METHOD**

Follow basic steps 1-7 for making dough (see page 17).

1. Remove dough from the Baking Pan. 2. Select shape variation of your choice.

**PIZZA DOUGH WITH BEER**

1-1/3 cups Olive Oil
1-1/2 Tbsp. All Purpose Flour
3-3/4 cups Water
3 Tbsp. Sugar
1 tsp. Salt
1-1/2 tsp. Salt
1-1/2 tsp. Active Dry Yeast

**METHOD**

Follow basic steps 1-7 for making dough (see page 17).

1. Remove dough from the Baking Pan. 2. Select shape variation of your choice.
DOUGH / QUICK DOUGH VARIATIONS

**BUTTER-RICH ROLL & BREAD DOUGH**
- 7/8 cup WATER
- 1 Large Egg, Beaten
- 3/4 cup Bread Flour
- 1 tsp. Salt
- 1/2 cup Dry Milk
- 1 Tbsp. Sugar
- 1 Tbsp. Butter
- 2 tsp. Active Dry Yeast
- 1 Tbsp. Egg Glaze
- 1/2 tsp. Rapid Rise Yeast

**PAN ROLLS**
2. Put dough on lightly floured board. Divide dough into equal quarters. Cut each quarter into 6 pieces. Shape each piece into a ball.
3. Place 1 ball in each of 24 greased muffin cups.
4. Brush with egg glaze if desired.
5. Cover dough, allow to rise in warm place until size doubles -- about 40 minutes to 1 hour.

**CINNAMON-RAISIN SWIRL LOAF**
2. Put dough on lightly floured board. Divide dough in 3 pieces.
3. Roll each 1/3 into a 8 x 9-inch rectangle. Spread surface with 1/4 cup butter, thinly sliced.
4. Sprinkle surface with 1/4 cup brown sugar, 1 tsp. cinnamon. Sprinkle 1/3 cup raisins over dough.
5. Place dough in greased 5-1/2 x 3-in. loaf pan or on large baking sheet.
6. Bake at 375°F, 30 to 40 minutes or until golden brown.

**CLOVERLEAF ROLLS**
2. Roll dough into 6-inch rectangles. Divide each rectangle into 6 pieces. Cut each piece into 3 sections. Shape each into a ball with palms of hands. Place 3 balls together in each of 24 greased muffin cups.
3. Brush with egg glaze if desired.
4. Cover dough, allow to rise in warm place until size doubles -- about 40 minutes to 1 hour.
5. Bake at 375°F, 10 to 20 minutes. Makes 24 rolls.

**TRADITIONAL LOAF**
2. Put dough on lightly floured board. Divide dough in 3 pieces. Shape each piece into loaves.
3. Place in 3 greased 5-1/2 x 3-in. loaf pans.
4. Brush with egg glaze if desired.
5. Cover dough, allow to rise in warm place until size doubles -- about 40 minutes to 1 hour.

**BREAD STICKS**
3. Brush with 1 beaten egg white and 1 Tbsp. water. Sprinkle with poppy seeds, sesame seeds or coarse salt if desired.
4. Bake at 400°F, 10 to 15 minutes.

**JAM COURSE**
- **Jam Course:**
  - Heating
  - Heating & Steering
  - Cooking
  - Cooling
  - Smoking

1. Follow steps 1 and 2 for BASIC / QUICK COURSE on page 10.
2. Precisely measure ingredients and add them to the Baking Pan.
3. Follow steps 4 and 5 for BASIC / QUICK COURSE on page 10.

6. **Select the JAM course.**
   - (1) Press the SELECT COURSE button to set the arrow (▼) to JAM.
   - (2) Press the START/RESET button.
   - The Operation Light will turn on and cooking will start.
   - The Display will show the time remaining until completion in 1-minute increments.

7. **Remove the Baking Pan.**
   - (1) When the course is done, beeps alert you that the jam is ready and the Operation Light will turn off.
   - (2) Press and hold the START/RESET button.
   - (3) Remove the Baking Pan.
     - Open the Lid and use oven mitts to pull the Baking Pan toward you by grasping the Baking Pan's shorter Flanges. This will unlatch the Baking Pan so you can lift it to remove.

8. **Remove the jam.**
   - Carefully remove the jam from the Baking Pan using a rubber spatula. If the Kneading Blade remains in your jam, use a plastic spoon or rubber spatula to remove the Blade.

9. **Be sure to unplug after using.**
   - Do not tug on the Power Cord.

**STRAWBERRY JAM**
- 2 cups Strawberry, Crushed
- 3/4 cup Sugar
- 1 Tbsp. Lemon Juice

**APPLE JAM**
- 2 cups Apples, Cored and Peeled
- 3/4 cup Sugar
- 1-1/2 Tbsp. Lemon Juice

**MIXED JAM**
- 1 cup Strawberry, Crushed
- 1-1/2 cups Apples, Cored and Peeled
- 3/4 cup Sugar

Preparing:
- 1. In microwaveable container, place apples and cover with water.
- 2. Drain apples and mash with a potato masher.
- Cook in microwave on High for 5 to 10 minutes or until tender.
CAKE COURSE

1.2 Follow steps 1 and 2 for BASIC / QUICK COURSE on page 10.
3 Precisely measure ingredients and add them to the Baking Pan.
4.5 Follow steps 4 and 5 for BASIC / QUICK COURSE on page 10.

6 Select the CAKE course.
(1) Press the SELECT COURSE button to set the arrow (►) to CAKE.
(2) Press the CRUST CONTROL button to set the arrow (◄) to either "LIGHT", "MEDIUM" or "DARK" to choose the crust you want.
(3) Press the START/RESET button.
(4) 11 minutes after pressing the START/RESET button, the Home Bakery will beep and ADD will flash in the Display for 5 minutes. Open the Lid and gently dislodge any flour that is left on the baking pan wall with a rubber spatula at this time. Add the appropriate ingredients according to the recipe. Beware of moving Kneading Blades when working with the Baking Pan during operation.
- As the process continues, the indication in the Display advances from KNEAD, then to BAKE.
- The Display will show the time remaining until completion in 1-minute increments.

7 Remove the Baking Pan.
(1) When baking is complete, beeps alert you that the cake is ready and the Operation Light will turn off.
(2) Press and hold the START/RESET button.
(3) Remove the Baking Pan. Open the Lid and use oven mitts to pull the Baking Pan toward you by grasping the Baking Pan's shorter Flanges. This will unlatch the Baking Pan so you can lift it to remove.

8 Remove the cake.
Turn the Baking Pan over and shake the cake out. If the Kneading Blade remains in the bottom of your cake, allow the cake to cool then use a plastic spoon or rubber spatula to remove the Blade. Please be careful when removing the cake from the Baking Pan for it may crumble or break.

9 Be sure to unplug after using.
Do not tug on the Power Cord.

CAKE VARIATIONS

SHORTCUT POUND CAKE
- See package label of Egg
- See package label of Water or Milk
- 1-1/2 package of Pound Cake Mix

CHOCOLATE CAKE
- 1/2 cup Water
- 3/4 cup Vegetable Oil
- 2 tbsp. Vanilla Extract
- 2 tsp. All Purpose Flour
- 3 tsp. Baking Powder
- 1 cup Sugar
- 7 Tbsp. Unsweetened Cocoa
When beep sounds:
- 1/2 cup Chocolate Chips

SHORTCUT CORN BREAD
- See package label of Egg
- See package label of Water or Milk
- 1-1/2 package of Cornbread Mix

DUTCH APPLE CAKE
- 3 Large Eggs, Beaten
- 1/3 cup Vegetable Oil
- 2 cups All Purpose Flour
- 1 tsp. Baking Powder
- 1 tsp. Baking Soda
- 1 cup Sugar
- 1/2 tsp. Salt
- 1/2 tsp. Allspice
- 1 tsp. Cinnamon
- 1 tsp. Orange Peel
When beep sounds:
- 1 cup Shredded Zucchini
- 3/4 cup Chopped Walnuts

SPICED ZUCCHINI BREAD
- 3/4 cup Orange Juice
- 1-1/2 Tbsp. Lemon Juice
- 2 Large Eggs, Beaten
- 1/3 cup Vegetable Oil
- 2 cups All Purpose Flour
- 3 tsp. Baking Powder
- 1 tsp. Baking Soda
- 3/4 cup Sugar
- 1/2 tsp. Salt
- 1/2 tsp. Orange Peel
- 1/2 Tbsp. Lemon Peel
SOUR DOUGH STARTER COURSE

**Sour Dough Starter Course:**

<table>
<thead>
<tr>
<th>Stages</th>
<th>Water</th>
<th>Bread Flour</th>
<th>Active Dry Yeast</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 min</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Preheat</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Knead</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Ready</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Complete</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**Sour Dough Starter:**

- Sour dough starter is a mixture of flour, water, sugar, and natural yeasts.
- This mixture is used to leaven dough, which helps in the baking process.
- The starter is active when it bubbles and has a sour aroma.

**BASIC / QUICK COURSE:**

1-5 Follow steps 1-5 for BASIC / QUICK COURSE on page 10.

**Select the desired course.**

1. Press the SELECT COURSE button to set the arrow (▼) to SOUR DOUGH STARTER.
2. Press the START/RESET button.
   - The Operation Light will turn on and the first cycle is shown (i.e., PREHEAT).
   - The Display will show the time remaining until completion in 1-minute increments.

**Beeps tell you the starter is done.**

1. When the course is done, beeps alert you that the starter is ready and the Operation Light will turn off.
2. Press and hold the START/RESET button.

**LIGHT SOUR DOUGH BREAD**

Add the following ingredients to the Starter.

- 3 cups Bread Flour
- 1-1/2 tsp. Salt
- 2 Tbsp. Sugar
- 2 Tbsp. Active Dry Yeast
- 3 Tbsp. Apple Cider Vinegar
- 2 Tbsp. Lemon Juice

**Add additional ingredients and bake.**

1 Add additional ingredients to the starter, and bake the bread using the BASIC course.

---

**SOUR DOUGH STARTER VARIATIONS**

**Traditional Sour Dough Bread**

When the Starter becomes active, add the following ingredients to the Baking Pan.

- 3 cups Bread Flour
- 1-1/2 tsp. Salt
- 2 Tbsp. Sugar
- 2 tsp. Active Dry Yeast

**Follow steps 1-7 for SOUR DOUGH STARTER on page 24 to prepare the starter.**

**Remove the Baking Pan with the starter and keep at room temperature for 7-10 days.**

1. Cover the Baking Pan with plastic wrap and puncture several holes with a fork.
2. To ensure that the temperature is as steady as possible, wrap the Baking Pan with a towel.
3. In colder areas, we recommend using the 24 hour RISE function in the HOME MADE course to keep the Starter at the optimum temperature. Please be sure to cover the Baking Pan with plastic wrap and puncture several holes before placing in the Home Bakery.
4. Stir the starter 2-3 times every day.

**Prepare the Starter for baking.**

When the Starter looks ready in about 7-10 days, feed the Starter 1 tsp. of sugar and 2 Tbsp. of bread flour and mix lightly. In about an hour, you will see bubbles on the surface that indicate that the Starter is active.

**Add additional ingredients and bake.**

Add the additional ingredients to the starter, and bake the bread using the BASIC course.

---

**Note**

- Both sour dough starter and bread are very sensitive to the environment. Baking results may vary depending on the season and location.
- Try to keep the area and the Baking Pan as clean as possible while the Starter is leavening.
- When leavening for more than 10 days, feed the Starter with 1 tsp. of sugar and 2 Tbsp. of bread flour once every 3-4 days.
- To bake another bread while the starter is leavening, transfer the Starter into a non-corrosive bowl (we recommend glass, ceramic, or stainless) and cover with a plastic wrap with holes.
**Home Made Course:**

- Other courses have each cycle time preprogrammed and does not allow any changes to be made to rising or baking times. The HOME MADE course allows you to program each of the cycles to adapt better to your favorite bread recipes.

**1-5** Follow steps 1-5 for BASIC / QUICK COURSE on page 10.

**6** Program the time for each cycle.

1. Press the SELECT COURSE button to select one of the 3 HOME MADE memories.
2. Press the CYCLE button to display the PREHEAT cycle.
3. To change the time of the cycle, press the TIME button. (The time display flashes. To reset, press the START/RESET button.) The time will advance in 1-minute increments.
4. Press the CYCLE button to set that time.
5. The factory default setting for HOME MADE is ALL OFF.
6. Press the CYCLE button again to display the next cycle. Use the TIME button to set the time, and then press the CYCLE button to set that time. Continue step 4 to program all cycles. (Refer to the table on page 27 for the maximum programmable time of each cycle.)
7. The length for KEEP WARM is preset to 60 minutes, and can only be turned on or off.
8. After all the cycle times are set, press the START/RESET button to check the total time of your setting. Press the START/RESET button again to begin operation. Make sure that the Operation Light turns on.
9. To program other HOME MADE courses, use the SELECT COURSE button to select MEMORY 2 or 3 and repeat the process.

**7-9** Follow steps 7-9 for BASIC / QUICK COURSE on page 11.

**EXPLANATION OF EACH CYCLE:**

<table>
<thead>
<tr>
<th>PREHEAT</th>
<th>OFF. 1 hr.30 min., Stabilizing the temperature of ingredients.</th>
</tr>
</thead>
<tbody>
<tr>
<td>KNEAD</td>
<td>OFF. 1 hr.10 min., Bread dough making, at a cycle time of less than 3 minutes. After process includes kneading. If cycle time is more than 3 minutes, it will indicate the time to add ingredients.</td>
</tr>
<tr>
<td>RISE1</td>
<td>OFF. 1 min., Dough rises (about 82°F).</td>
</tr>
<tr>
<td>RISE2</td>
<td>OFF. 1 min. - 2 hrs, Dough rises after steam is released (about 82°F).</td>
</tr>
<tr>
<td>BAKE</td>
<td>OFF. 1 hr. - 2 hrs, Dough rises after the bread is baked (about 100°F).</td>
</tr>
<tr>
<td>KEEP WARM</td>
<td>OFF. 50 min., Dough rises after steam is released.</td>
</tr>
</tbody>
</table>

- Some settings of the HOME MADE setting are different from the BASIC setting.

**To cancel a cycle during that cycle...**

1. Press the TIME button to display the ongoing cycle and the remaining time. (After 5 seconds have passed, the display automatically returns to the original state.)
2. While the remaining time is displayed, you can cancel the current cycle and move on to the next cycle.

- **Hold down the CYCLE button slightly longer while the time display is flashing.** Complete the cycle process. After two seconds, the display will show time remaining until the bread is ready, resuming operation.

**To erase all settings...**

The unit will remember the setting you had programmed for your next bake. If you cancelled a cycle during that cycle, the unit will remember the shortened cycle for your next bake.

Follow these procedures to erase all settings:
1. Unplug the Power Cord from the outlet.
2. Plug the Power Cord into the outlet while holding down the CYCLE button. The HOME MADE memory is erased and reset. Please keep in mind that by resetting the memory, all settings will be erased.

**Precautions when using recipes not included in this book:** Please note that we are not responsible for any baking or jam results using ingredients, or amounts which are not listed. (This also applies to the HOME MADE course where you can change the baking cycle time to your preference.)

1. Be sure not to place an excessive load on the motor as this may cause unit damage, especially when:
   - you decrease the amount of water,
   - you increase the amount of flour,
   - you add big or hard ingredients, etc.

**To use the Timer, please see "HOW TO USE THE TIMER" on page 6.
**HOME MADE VARIATIONS**

**CRUSTY FRENCH**

1-1/2 cups Water  
4-1/2 cups Bread Flour  
1-1/2 tsp. Salt  
2 tbsp. Active Dry Yeast

**CRUSTY FRENCH (1.5 lbs. SIZE)**

1 cup Water  
3-1/4 cups Bread Flour  
1 tsp. Salt  
1/2 Tbsp. Butter  
1-1/2 tsp. Active Dry Yeast

The suggested time cycle for CRUSTY FRENCH is as follows:

<table>
<thead>
<tr>
<th>PREHEAT</th>
<th>KNEAD</th>
<th>RISE1</th>
<th>RISE2</th>
<th>RISE3</th>
<th>BAKE</th>
<th>KEEP WARM</th>
</tr>
</thead>
<tbody>
<tr>
<td>22</td>
<td>18</td>
<td>45</td>
<td>1:25</td>
<td>OFF</td>
<td>1:10</td>
<td>1:00</td>
</tr>
</tbody>
</table>

The top of the CRUSTY FRENCH may not turn out as smooth as other breads. If the top of the CRUSTY FRENCH falls, try reducing the amount of water by 1 Tbsp. If the bread does not rise high enough, try increasing the amount of yeast, or use Rapid Rise Yeast.

**MEATLOAF MIRACLE**

1 Medium Onion, Chopped  
2 lbs Ground Sirloin  
1 cup Mushrooms, Sliced  
2 tbsp. Salt  
2 Tbsp. Fresh Parsley, Chopped  
1 tsp. Garlic Powder  
1/4 tsp. Black Pepper  
1 cup Bread Crumbs  
2 Large Eggs, Beaten

<GLAZE>

1/2 cup Ketchup or Barbecue Sauce  
1 Tbsp. Brown Sugar  
1 tsp. Prepared Mustard

1 Combine ingredients and mix well.

In a large bowl, combine all ingredients except for glaze and mix well. Remove Kneading Blades from Baking Pan and press meat mixture into the Baking Pan. Insert the Baking Pan into the unit and close the lid.

2 Prepare Glaze.

In a small bowl, combine glaze ingredients and set aside.

3 Bake in the Home Bakery.

(1) Select the HOME MADE (1, 2 or 3) course.
(2) Press the CYCLE button, turning OFF all cycles (Preheat, Knead and Rise cycles).
(3) Select the Bake cycle. Press and hold the TIME button until the Display shows 1:00. Then press the CYCLE button twice to record this setting.
(4) Press the START/RESET button twice to begin the baking cycle.
(5) Verify that the Operation Light is turned on. Baking time is 1 hour and 10 minutes.
(6) 30 minutes prior to the end of baking time, open the Lid and pour the glaze mixture on top of the meatloaf. Close the Lid and continue baking.
(7) Once baking is completed, allow the meatloaf to cool slightly, drain juices and remove from the Baking Pan. Slice and serve.

**CLEANING & STORAGE**

! **CAUTION !**

To avoid electrical shock, first unplug the Home Bakery and allow it to cool before cleaning.

Dust and crumbs that collect inside the Home Bakery may cause scorching or uneven baking, so be sure to clean the unit and Baking Pan after each use, following these steps:

**Outer Body and Lid**

Wipe off the Outer Body of the unit with a damp cloth. Wipe the Lid as well. Clean the Viewing Window with a moist paper towel, and wipe dry.

**CAUTION**

Do not immerse the unit in water or any other liquid.

**Baking Pan and Kneading Blade**

Both the Baking Pan and Kneading Blade have coated nonstick surfaces. Harsh cleaners (such as abrasives and metal scrubbers) or utensils (such as forks, knives and metal spatulas) must not be used on these parts as you may scratch them. Over time the nonstick surface may change color due to moisture and steam. This is absolutely normal and has no effect on unit performance or use.

Allow the unit to cool completely before storing it. Keeping the Lid open helps. Clean it as described above. Carefully dry all unit components and wipe off any moisture inside the unit. To avoid damage to the unit, do not place any heavy objects on top of the Lid.

**ABNORMAL CONDITIONS**

<table>
<thead>
<tr>
<th>Status</th>
<th>Condition Cause</th>
</tr>
</thead>
<tbody>
<tr>
<td>&quot;HOT&quot; appears</td>

*Ingredients in boxed products reflect the heating element or filter used.

- This does not release any malfunction. Make sure to clear the filter used. Unplug the unit and allow it to cool down.

- This does not release any malfunction. Make sure to clear the filter used. Unplug the unit and allow it to cool down.
**QUESTIONS AND ANSWERS**

**Q1** Why is the crust of the Basic Bread harder?

**A1** The Basic Bread course is programmed to provide texture. For a softer crust, store your bread in a plastic bag after it has cooled down to body temperature.

**Q2** Why do the loaves sometimes vary in height and shape?

**A2** Breads are very sensitive to its environment such as room temperature, weather, humidity, altitude, and the condition of the Timer and the mix may vary slightly. The bread shape can also be affected if fresh ingredients are not used or measured incorrectly. Please see "Tips For Successful Baking" on page 8 for further information.

**Q3** How do the loaves vary in shape depending on the season?

**A3** During summer, loaves may sometimes rise too high or collapse, causing a dent in the middle. During winter, you may have trouble getting the bread to rise. This may be solved by keeping the water temperature at about 68°F.

**Q4** Why does flour occasionally stick to the side of the bread?

**A4** During the initial mixing period, small amounts of flour may sometimes stick to the sides of the baking pan and baked onto the sides of the loaf. If this happens, scrape off that portion of the outer crust with a knife.

**Q5** Why does flour occasionally stick to the side of the cake baked using the CAKE course?

**A5** You may not have added the ingredients in the order listed. When the bread rises, it is time to add additional ingredients, be sure to remove flour that remains on the sides of the baking pan using a rubber spatula.

**Q6** Why is the dough sometimes very sticky and difficult to work with?

**A6** Dough may sometimes stick (or too wet) depending on the room and water temperatures, try using colder water when making the dough and dust the kneading surface and your hands with flour more frequently. If adding flour does not help, try reducing the amount of water by 1–2 Tbsp.

**Q7** Why is my croissant sometimes not flaky?

**A7** Butter may not fold into the dough well to form the flaky texture. If the dough is not refrigerated well, place the dough in the refrigerator to cool prior to folding in the butter.

**Q8** Why does the top of the loaf sometimes look torn?

**A8** Sometimes the dough rises too well, and the top of the loaf looks torn. However, the loaf will have a very soft texture.

**Q9** Can I make breads using eggs in the Home Bakery?

**A9** Yes. Reduce the amount of water and replace with eggs. Put the eggs in the Measuring Cup first, then add water to measure accurately. Do not use the Timer function when using eggs as they may spoil.

**Q10** Can I use this Home Bakery for favorite bread recipes found in other cookbooks?

**A10** The accompanying recipes were specifically created for this Home Bakery; results may vary when using any other recipes. We recommend you use the recipes in this book whenever possible.

**Q11** Why cannot the Timer be set for more than 13 hours?

**A11** Ingredients may spoil and affect the quality of the dough if left out for an extended period. The Timer on the Home Bakery is set to the maximum of 13 hours for the best taste and performance.

**Q12** Why does the bread sometimes have a strange odor?

**A12** Too much active yeast or un-fresh ingredients (especially flour and water) may cause odors. Always measure ingredients accurately and use fresh ingredients for best results.

**Q13** May I use home-ground or home-milled flour?

**A13** Depending on how coarsely ground the home-milled flour is, results may not be satisfactory. We recommend using a blend of home-ground flour and regular bread flour for best results. When milling flour, do not grind the flour too coarse as it may damage the baking pan.

**Q14** Why not the additional ingredients such as raisins and nuts mix into the dough well?

**A14** Separate ingredients that may stick together (raisins and other fruits) before adding. Add also add ingredients little by little to incorporate into the dough better.

**Q15** Why is my whole wheat bread shorter than regular white bread?

**A15** Whole wheat flour does not rise as well as bread flour, especially 100% whole wheat breads turn out shorter and smaller than regular white bread.

**TROUBLESHOOTING GUIDE**

This guide was created to help you through any difficulties you may encounter as you learn to use your Home Bakery. Bread is very sensitive to its environment, so be patient, and consult this guide. Also please feel free to contact ZOJIRUSHI Customer Service toll-free for additional help.

1. Consult the chart below. First, adjust the yeast.
2. If adjusting the yeast does not solve the problem, next, make adjustments to liquids.
3. If the loaf is still not acceptable, make adjustments to dry ingredients.
4. Also see the chart below and check the condition of your ingredients and the unit.

<table>
<thead>
<tr>
<th>Problem</th>
<th>Cause / Remedy</th>
</tr>
</thead>
<tbody>
<tr>
<td>Loaf rises too high.</td>
<td>Try using 2 tsp. of Rapid Rise Yeast instead of Active Dry Yeast, or by raising the room temperature. For QUICK course, try raising the water temperature to 86°F.</td>
</tr>
<tr>
<td>Loaf does not rise high enough.</td>
<td>Try using cold water at 40°F, or lower the room temperature.</td>
</tr>
<tr>
<td>Loaf rises too high.</td>
<td>Try raising the water temperature to 86°F, or increase the amount of water by 1 Tbsp.</td>
</tr>
<tr>
<td>Top of the loaf cracks.</td>
<td>Try raising the water temperature.</td>
</tr>
<tr>
<td>Bottom of the loaf is burnt.</td>
<td>Try increasing the amount of water, raise the water temperature to 86°F, or raise the room temperature. Remove the bread from the Baking Pan immediately after completion.</td>
</tr>
<tr>
<td>Loaf is too dark.</td>
<td>Make sure that the Baking Pan is set properly in the unit, and that the Kneading Blades are installed correctly.</td>
</tr>
</tbody>
