IMPORTANT SAFEGUARDS

When using the Breadman® Automatic Bread Baker, basic safety precautions such as instructions should always be followed including the following.

1. Read all instructions before use.
2. Do not touch hot surfaces. Use oven mitts when taking out Bread Pan.
3. To protect against electrical shock do not immerse cord, plug or appliance, except bread case and Kneading Paddle, in water or other liquid.
4. Close supervision is necessary when any appliance is used by or near children.
5. Unplug cord from wall outlet when not in use and before cleaning. Allow appliance to cool before putting on or taking off parts.
6. Do not operate any appliance with a damaged cord or plug or after appliance malfunctions or has been damaged in any manner. Return appliance to Salton/MAXIM Housewares, Inc. for examination, repair or adjustment.
7. The use of accessory attachments not recommended by Salton/MAXIM Housewares, Inc. may cause injuries.
8. Do not use outdoors.
9. Do not let cord hang over the edge of table or counter, or touch hot surfaces.
10. Do not place appliance on or near a hot gas or electric burner, or in a heated oven.
11. Avoid touching any moving parts during operation.
12. Extreme caution must be used when moving an appliance containing hot contents or liquids.
13. Where applicable, check that the control is “OFF” before plugging cord into wall outlet. To disconnect, push STOP button, then remove plug from wall outlet.
14. Do not use appliance for other than intended use.
15. Do not use on an unsteady or cloth-covered table.
16. This appliance is intended for household use only.
17. Keep appliance at least 2 inches away from walls or any other objects during use.
18. This appliance has a polarized plug (one blade is wider than the other). As a safety feature, this plug will fit in a polarized wall outlet only one way. If plug does not fit fully in wall outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not attempt to defeat this safety feature.

SAVE THESE INSTRUCTIONS

NOTES:
A. A short power-supply cord is provided to reduce the risk resulting from becoming entangled in or tripping over a longer cord.
B. Extension cords are available and may be used if precautions are taken in their use.
C. If an extension cord is used,
   (1) The marked electrical rating of the extension cord should be at least greater than the electrical rating of the appliance, and
   (2) The cord should be arranged so that it will not drape over the counter top or table top where it can be pulled on by children or tripped over accidentally.

CAUTION: During use, the internal parts of the Breadman® and the area around the Steam Vent are HOT. Keep out of reach of children to avoid possible injury.
YOUR BREADMAN®

A. Removable Lid
B. Viewing Window
C. Steam Vents
D. Handle
E. Bread Pan
F. Control Panel
G. Drive Shaft (inside)
H. Kneading Paddle
I. Power Supply Cord
J. Heating Element
K. Oven Chamber

POLARIZED PLUG

This appliance has a polarized plug (one blade is wider than the other). To reduce the risk of electric shock, this plug is intended to fit into a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not attempt to modify the plug in any way.
CONTROL PANEL

A. Display Window
Shows your selection, loaf size and timer setting.

B. Selection Options
Select from these bread choices:
Basic Bread (Normal or Rapid, 1.5 - 2lb, Light, Med. or Dark)
French (Normal or Rapid, 1.5 - 2lb, Light, Med. or Dark)
Fruit & Nut (Normal, Rapid, 1.5 - 2lb, Light, Med. or Dark)
Whole Wheat (Normal or Rapid, 1.5 - 2lb, Light, Med. or Dark)
Batter Breads™/Cake
Bake Only (Light, Med. or Dark + Time)
Dough
Pizza Dough
Bagel Dough
Jam

C. Timer
Use this pair of buttons to add or subtract time displayed in the Display Window.
▲ Each time you press this button, the Timer advances 10 minutes. (Hint: Hold down the button for speedier results.)
▼ Each time you press this button, the Timer is set back 10 minutes.

D. Menu
Press this button to select the baking or dough cycle of choice. Each time you press this button the number in the display window will correspond with the number next to each selection. Press the MENU button until your choice is indicated. If at any time during baking process you would like to check which cycle has been selected just hold down the MENU button to review. When the MENU button is released the time remaining in the process will reappear.

E. Loaf Size
Press this button to select what size loaf you would like to prepare. An indicator symbol (*) will appear in the Display Window next to either 1.5 lb. or 2lb. loaf.

F. Crust Control
To control the crust color of your loaf, press this button. You have a choice of Light, Medium or Dark. An indicator symbol (*) will appear next to your choice when this button is pressed.

G. Start/Stop
Press START/STOP button to begin the cycle that you choose and to begin the Timer. The time remaining will appear in the Display Window. Use this button to stop the baking process at any point or to turn off the power.

NOTE: The row of indicator lights just below the display window marked Timer, Knead, Rise, Bake and Complete are to alert you to which function is being performed in the cycle process. When the buttons on the control panel are pressed you will hear a soft beep sound to indicate that the selections are indeed being made.
USING THE BREADMAN®

With your new Breadman® Automatic Bread Baker:

- You can use pre-packaged bread mixes. Instructions are on each package.

- You can bake a loaf of bread from scratch. See the Recipe & Menu Planner included with your Breadman® for lots of tasty options.

- You can make dough for rolls and shaped loaves as well as Pizza and Bagels! Choose the Dough, Pizza or Bagel Dough cycles. Use any of the Breadman’s® 3 Dough cycles to do the mixing and kneading for you, then shape and bake your bread loaves, pizza or bagels yourself.

- You can make delicious non-yeast Batter Breads™ and cakes!

- You can make all kinds of tasty Jams by using the Jam cycle.

- You have power failure back-up. If the electricity in your home goes out or you mistakenly unplug the machine, the Breadman’s memory stores the active program. If power is re-connected within one hour of that time period, the Bread Baker will return to baking your bread.

NOTE: If you experience frequent surges in your area, please use a surge protector.

- If your power is out for longer than 60 minutes, and if you are using any dairy products, perishables or meats in your bread, for health, sanitary and other considerations, you should discard the contents of the recipe and start again with new fresh ingredients.

- To insert the Bread Pan, place into the Oven Chamber with the pan turned slightly counterclockwise. To lock the pan into position turn the pan slightly clockwise (in the direction marked “LOCK” on the edge of the pan.) Then place the Kneading Paddle onto its shaft before adding any ingredients.
USING THE BREADMAN® (continued)

- To remove the Bread Pan simply turn the Bread Pan counterclockwise (in the direction marked “REMOVE” on the edge of the Bread Pan) and lift out of the Oven Chamber.

**NOTE:** Always hold the Bread Pan by the handle when inserting and removing from the Oven Chamber.

**Caution**

When removing the pan after baking always wear oven mitts to prevent injury.

**Operating Tips**

- Use oven mitts when working with bread or any part of the Breadman® that is hot from baking.
- Wipe off crumbs and clean the Breadman®, as needed, after baking.
- Unplug the Breadman® when you are not using it.
- It is normal for the Viewing Window to collect moisture during the beginning of the Baking cycle. As your bread bakes, the moisture will evaporate soon so you can watch your bread’s baking progress.
- Don’t open the Lid during baking. This can cause the bread to bake improperly.

**Caution**

- To protect young children, keep the Breadman® out of their reach when you’re not there to supervise — especially during the Kneading and Baking cycles.
- Use the Breadman® on a flat, hard surface. Don’t place it near a flame or heat, or on a soft surface (such as a carpet). Avoid placing it where it may tip over during use. Dropping the Breadman® could cause it to malfunction.
- To avoid burns, stay clear of the Steam Vent during kneading and baking. Also, don’t touch the Viewing Window — it gets very hot.
• After baking, wait for the Breadman® to cool down thoroughly before touching or cleaning the Bread Pan or metal parts of the Breadman® without oven mitts.

• Never use metal utensils with the Breadman®. These can scratch the non-stick surface of the Bread Pan.

• Avoid electric shock by unplugging before using a damp cloth or sponge to wipe the interior of the Oven.

• Never use the Bread Pan on a gas or electric cooktop or on an open flame or in a microwave!

• Avoid covering the Steam Vent during Kneading and Baking cycles. This could cause the Breadman® to warp or discolor.

• For operating tips, we recommend watching the video instructions which accompany this product. However, they are not a substitute for reading the owner's manual.

• Always make sure the Kneading Paddle is removed from the bread prior to slicing.

*Applies only to models with video manuals.
BAKING CYCLES

The Breadman® Automatic Bread Baker has a possible 56 program settings from which you can choose.

- The Crust Control feature lets you choose Light, Medium or Dark crusts for most bread varieties, including Basic, French, Fruit & Nut, and Whole Wheat.
- The French cycle is for breads with crisper crusts, especially those that are lowest in fat and sweeteners, such as French and Italian breads.
- You have the option to quicken your bread making time. The “RAPID” setting is faster than “NORMAL” setting.
- The 1.5 lb. loaf size will not rise as high as the Bread Pan. The 2 lb. size may rise as high or higher than the Bread Pan.
- Batter Bread™ uses high amounts of sugar and fat. Eggs are added to make a nutritious sweet bread.
- “Bake Only” setting is used to bake filled, rolled or specialty loaves from previously frozen dough.
- The Jam cycle makes your favorite jams.

This table shows how long each part of the Baking cycle takes:

MAKING DOUGH AND BAKING BREAD

Here's how to bake bread with your Breadman®

**STEP 1**
Open the Lid and remove the Bread Pan.
Turn Pan counterclockwise and remove from the Oven Chamber.

**STEP 2**
Position the Kneading Paddle on the Drive Shaft as shown.
Match the flat side of the Kneading Paddle to the bottom of the Baking Pan.
Make sure the Paddle is secure.
Place the ingredients into the Bread Pan.
For best results, add all liquid ingredients first. Then, add all dry ingredients EXCEPT yeast.

**ALWAYS ADD YEAST LAST.**

**NOTE:** If your recipe contains salt, please add salt with liquid ingredients, keeping it away from the yeast. Salt may activate the yeast prematurely.

*For Batter Bread, Jam and Dough cycles, the order of ingredients is not important.*

**STEP 4**

Make a small indentation on top of the dry ingredients (not so deep it reaches the wet layer) and add the yeast to the indentation.

This order of adding ingredients is important, especially when using the Timer, because it keeps the yeast away from the wet ingredients until the kneading process begins. (Liquid ingredients will prematurely activate the yeast.)

**STEP 5**

Insert the Bread Pan into the Oven Chamber at a slight counterclockwise position, then turn clockwise following the arrow marked on the Bread Pan. This will lock the Pan in place for baking.

Close the Lid and plug in the Breadman®.

"0:00" will appear in the Display Window. To clear the display, press the START/STOP button.
STEP 6

Press the MENU button to choose the cycle you want.

Each time the MENU button is pressed, it will beep and the number next to the cycle on the control pad will correspond to the number in the Display Window.

For instance, #1 equals Basic Normal and Basic Rapid, #2 equals French Normal and French Rapid and so on.

1. Basic: Normal / Rapid
2. French: Normal / Rapid
3. Fruit & Nut: Normal / Rapid
4. Whole Wheat: Normal / Rapid
5. Batter Bread
6. Bake Only:
   Med. / Dark / Light
7. Dough
8. Pizza Dough
9. Bagel Dough
10. Jam

NOTE: The setting for Normal or Rapid is available only on Basic, French, Fruit & Nut or Whole Wheat settings.

STEP 7

Press the CRUST CONTROL button to select what color you would like your crust to be when the loaf is finished baking. A flashing bar in the Display Window will appear next to your selection, Light, Medium or Dark.

*CRUST CONTROL cannot be activated for:

- Batter Bread
- Cake
- Jam
- Dough
- Pizza Dough
- Bagel Dough

STEP 8

Press LOAF SIZE button for the size you prefer. An indicator light will appear next to either 2 lb. or 1.5 lb. in the display window to verify which size is selected. If this button is not pressed, the Bread Baker will automatically choose 2 lb. loaf size.

NOTE: When using the Dough, Batter Bread or Jam cycles, steps 7 and 8 are not needed.
Press START/STOP button to begin the Kneading cycle.

The time remaining will begin to count down in the Display Window. The Breadman® will begin mixing the ingredients for a minute. Then, it will begin the kneading process. During this time the Viewing Window may begin to fog. (This will clear eventually so you can view the loaf’s progress).

For the Basic, Fruit & Nut and Whole Wheat cycles, the Breadman® will beep 5 minutes before the end of the Kneading cycle at which time you may add any fruits or nuts or extra ingredients.

*Whole Wheat cycles have a rest period for up to 20 minutes before kneading begins. No movement occurs in the pan. This is normal.

When your bread is finished baking the Breadman® will beep 3 times and "0:00" will appear in the Display Window. Press the START/STOP button and open the Lid.

Put on oven mitts and remove the Bread Pan very carefully as it will be very hot.
Remove the loaf from the Bread Pan onto an aerated cooling rack to prevent the loaf from retaining too much moisture. Your loaf should slide easily out of the non-stick Bread Pan onto the rack.

If necessary, remove the Kneading Paddle from the loaf.

Sometimes the Kneading Paddle will stick in a loaf of bread. If it does, use a plastic or non-metal utensil to gently remove it, taking care not to scratch the Kneading Paddle. This is a common procedure with bread makers.

When you are done using the Breadman®, be sure to unplug it.
USING THE BATTER BREAD™/CAKE CYCLE

The Breadman® Batter Bread™/Cake cycle is for non-yeast breads, such as banana bread, pumpkin bread or cake. The Batter Breads usually call for quick-acting leavening agents such as baking powder or baking soda.

The Breadman® will mix all of the ingredients and bake a cake-like bread in 2 hours.

NOTE: These breads tend not to rise as high as yeast breads.

For Best Results

Basic cake recipes can be used as well as pre-packaged cake mixes.

When baking cakes from scratch, please note the following:

• Baking cakes such as pound cake or angel food cake or any cake that requires long beating of eggs or egg whites or other ingredients are not recommended in the Breadman®

• If a recipe calls for a 9" x 5" cake pan, it will not have any problem fitting into the Baking Pan. On the same note, if a recipe is written to form two layers, the recipe can be cut in half to fit into the Baking Pan.

• Cakes in which all ingredients can be mixed together at one time are prime recipes for the Breadman®

Operating Instructions For Batter Bread™/Cake Cycle

• Measure ingredients in the recipe and add to the Baking Pan. (Make sure the Kneading Paddle is in position.)

• Insert Baking Pan into the Breadman® and close the Lid.

• Press MENU to select the Batter Bread™/Cake cycle.

• Press START/STOP button to begin cycle.

• The baking process will finish in 2 hours.

• BE SURE TO WEAR OVEN MITTS AS THE UNIT WILL BE VERY HOT!

• Turn onto a baking rack and let the cake cool completely before slicing or decorating.

PLEASE NOTE:

The Delay Bake Timer can not be used for the Batter Bread™/Cake cycle.

15
BAKE ONLY CYCLE INSTRUCTIONS

Use this cycle if you have frozen or stored bread dough, cake batter or a bread batter and would now like to bake it.

- Always thaw frozen dough completely before baking.
- This cycle will bake the ingredients only for the time that you specify, from 10 minutes to 4 hours.
- You do not need to insert the Kneading Paddle for this cycle. It bakes only.

**Crust Control**

The CRUST CONTROL button is used to select the baking temperature from the following options:

**Light:** Use to bake a cake or the like at a relatively low temperature. The baking time is changeable with the TIMER button within the range of 10 minutes to 4 hours.

**Medium:** This mode should be selected when baking a bread made with a Basic, Fruit & Nut or Whole Wheat dough. The baking time is changeable with the TIMER button within the range of 10 minutes to 4 hours.

**Dark:** This mode should be selected when baking a bread made with the French setting. The baking time is changeable with the TIMER button within the range of 10 minutes to 4 hours.
DOUGH CYCLE INSTRUCTIONS

- The DOUGH setting is used to make a variety of bread types (with the exception of Bagel and Pizza).
- After the end of the first rise, remove the dough, shape the dough and bake it in a conventional oven.
- Dough cycle takes 1 hour 30 minutes.
- The Breadman® will signal 5 minutes before it is finished Kneading, indicating when any additional ingredients such as dried fruits, nuts or herbs should be added.

Pizza Dough

- Pizza Dough setting will simplify Pizza Dough preparation. When the dough is ready, roll it out with a rolling pin and top with your favorite toppings. Then bake in a conventional oven, following the times and temperatures given in your recipe.
- The Pizza Dough cycle takes 1 hour.

Bagel Dough

- Prepare Bagel Dough according to instructions. When the dough is ready, shape the dough into circles. Bagels are first boiled in water then baked in a conventional oven. Be sure to follow the complete instructions, times and temperatures given in your recipe.
- The Bagel Dough cycle takes 1 hour 20 minutes.
JAM CYCLE INSTRUCTIONS

The Jam cycle is very similar to the Batter Bread™ cycle. Just add your ingredients and the Breadman® will do the rest.

For Best Results

- Do not reduce sugar or use sugar substitutes. The exact amounts of sugar, fruit, and pectin are necessary for a good set.
- Use only ripe fruit (not overripe or underripe) for best flavor.
- Do not puree fruit. Crush with a potato masher or food processor. Jam should have bits of fruit in it.

Operating Instructions

- Recipes should not exceed 3-1/2 cups.
- Be sure to measure fruit after it has been crushed, not before.
- Remove stems, seeds, or pits from fruit before crushing.
- With Kneading Paddle in position, add the ingredients called for in your recipe.
- Insert Baking Pan into the Breadman®.
- Close Lid.
- Press MENU button to select the Jam cycle.
- Press START/STOP button to begin.

- The Breadman® will pre-heat for 20 minutes before anything begins to mix. After this time, the ingredients will be mixed and heated for 90 minutes. The entire cycle takes 1 hour and 50 minutes to complete.
- The Breadman® will beep when the cycle is complete.
- Press START/STOP and remove the Baking Pan from the machine. **MAKE SURE TO WEAR OVEN MITTS AS THE PAN WILL BE EXTREMELY HOT!**
- Pour the hot jam into a refrigerator/freezer-safe container, leaving at least 1/2" of space at the top. Cover tightly.
- Jam will thicken upon cooling and storage.

PLEASE NOTE:

*The Delay Timer can not be used for the Jam cycle.*

See table at bottom of page 9 for times.
USING THE DELAY TIMER

You can preset your Breadman® Bread Baker to cook pre-programmed breads from 3 hours and 10 minutes to 15 hours in advance.

NOTE: Don't use the Timer if your recipe includes eggs, fresh milk or other ingredients that may spoil.

To preset your Breadman®, follow these steps:

1. Add the ingredients as usual, taking care not to let the yeast and liquid ingredients contact one another.

2. If your recipe contains salt, please add salt with liquid ingredients, keeping it away from the yeast. Salt may activate the yeast prematurely.

3. Close the Lid and plug it in.

4. Press the START/STOP button to clear display. Select the Baking Cycle you want:
   - **Basic**: Normal or Rapid, 1-1/2 lb. or 2 lb., Light, Medium or Dark Crust;
   - **French**: Normal or Rapid, 1-1/2 lb. or 2 lb., Light, Medium or Dark Crust;
   - **Fruit & Nut**: Normal or Rapid, 1-1/2 lb. or 2 lb., Light, Medium or Dark Crust;
   - **Whole Wheat**: Normal or Rapid, 1-1/2 lb. or 2 lb., Light, Medium or Dark Crust;
   - **Batter Bread**: Bake Only, Dough, Pizza Dough, Bagel Dough or Jam. The time needed for the selected Baking Cycle appears in the Display Window.

   NOTE: The Delay Timer cannot be used for Fruit & Nut, Batter Bread,™ Bake Only, Dough, Pizza Dough, Bagel Dough or Jam.

5. Press the ▲ Timer button once for each 10 minutes you want to add.
   (Use the ▼ button to subtract time from the Timer. The amount of time you set is shown in the Display Window.

   ![Timer Display]

   * For example, if it is 8 o'clock PM and you want a loaf of bread ready at 7 o'clock AM, that is 11 hours from now, press the ▲ Timer button until 11:00 appears on the display.

   NOTE: Actual baking times will not change.

6. To check which setting you have chosen at any time during operation, press the MENU button.

7. Press START button to begin the Timer. The LED display will flash, letting you know the Timer is started. When the Display Window indicates “0:00,” baking is completed.

8. If you make an error and want to start over again, press and hold STOP button. The Timer will clear and you can begin again.
USING THE DELAY TIMER  (continued)

For Best Results

- Take care to measure ingredients accurately, using a good set of measuring cups and spoons, or a good scale. Make sure to level all dry ingredients as you measure them. Inaccurate measuring could cause unexpected results in your loaf of bread.

- In particular, be precise in measuring the water.

- Take care not to add more than 4-2/3 cups of flour per loaf. Excess flour will cause the bread to bake incompletely and the dough to stick to the inside of the Lid.

- After placing all the ingredients in the Baking Pan, wait 10 minutes before pressing “Start.”

- Use fresh ingredients.
  
  - Since moisture is an enemy to flour, be sure to store your flour in an airtight container.
  
  - To keep your yeast active, store it in an airtight container in your refrigerator. **DO NOT USE YEAST IF THE DATE CODE HAS EXPIRED!**

- **Speaking of fresh** — when using the Timer, we recommend setting it for as short a time as possible. Because ingredients are partially combined in the Bread Pan, the dough may tend to deteriorate if left too many hours, especially on a warm or humid day.

- When using the timer cycle for more than a couple of hours, during times of high humidity or hot weather, cut the liquid by one or two tablespoons to reduce the possibility of over-rising. Salt may be increased by 1/8 to 1/4 teaspoon to keep the dough from rising too quickly and falling. Sugar can also be reduced by up to half the recipe amount.

- Keep the Lid closed during the Baking cycle. Opening it causes uneven baking.

- After your bread has cooled completely, store it in a plastic bag or plastic wrap to prevent it from drying out.

---

Power Failure Back-Up

If power should fail or if the unit is mistakenly unplugged, the memory stores the active program. If power is re-connected within one hour of that time period, the Bread Baker will return to baking your bread. Power Failure Back-Up does not cover surges. If you experience frequent surges, please use a surge protector.
CLEANING INSTRUCTIONS

The Bread Pan and Kneading Paddle have non-stick surfaces that make cleaning easy.

1. After baking each loaf of bread, unplug the Breadman® and discard any crumbs.

2. Remove the Bread Pan from the Oven and the Kneading Paddle from the Bread Pan. Then, as needed, wash the Bread Pan and Kneading Paddle inside and out with warm, soapy water. Avoid scratching the non-stick surfaces. **DO NOT PUT THE PAN IN A DISHWASHER OR SOAK IT IN WATER.**

   If the Kneading Paddle is stuck to the Drive Shaft, pour warm water in the Pan to loosen it. **DO NOT USE EXCESSIVE FORCE.**

3. Wipe the inside of the Lid and Oven with a damp cloth or sponge. If any residue has scorched on the heating plate or elsewhere, scrub with a non-abrasive scrubbing pad and wipe clean. The Lid can be removed for cleaning. **DO NOT PUT THE LID IN A DISHWASHER.** This can cause the lid to warp.

Do not use vinegar, bleach, or harsh chemicals to clean the Breadman®.

Do not soak the Bread Pan for a long period of time — this could interfere with the free working of the Drive Shaft.

Be sure the Breadman® is completely cooled before storing.

The inner casing contains the heating element and drive base. Therefore, when cleaning, **NEVER pour water, solvents or cleaning solutions into this area.**

The lid is removable for easy cleaning. Because it contains a sensitive electronic sensor, **DO NOT LEAVE IT SOAKING IN WATER.**

**DO NOT PUT LID IN THE DISHWASHER.**

To avoid electric shock, unplug the Breadman® before cleaning!
TROUBLESHOOTING

<table>
<thead>
<tr>
<th>Symptom</th>
<th>Possible Solutions</th>
</tr>
</thead>
<tbody>
<tr>
<td>Bread has an offensive odor</td>
<td>Check to be sure you added the correct amount of yeast. Measure carefully — too much yeast will cause an unpleasant odor and may cause the loaf to rise too high. Be sure to use only fresh ingredients.</td>
</tr>
<tr>
<td>Baked bread is soggy or the bread's surface is sticky</td>
<td>Remove the bread from the Bread Pan as soon as it is done baking. Leaving it in the pan allows condensation to collect on the sides touching the pan. Also be sure to cool the loaf on a wire rack; cooling it on a countertop causes the side next to the counter to become soggy.</td>
</tr>
<tr>
<td>START button doesn't start the machine</td>
<td>Make sure the machine is plugged in. If nothing appears in the Display Window, press STOP to clear the display. Then press MENU to choose your Baking cycle. (You must select a Baking cycle before pressing START.) If the baking area is too hot, the Breadman® will not start because of an automatic safety feature. Remove the Bread Pan with your ingredients, and wait until the Breadman® cools down — about 20 minutes — before starting a new loaf.</td>
</tr>
<tr>
<td>Can't set the Timer</td>
<td>Don't use the Timer if your recipe includes eggs, fresh milk or other ingredients that may spoil. <em>The Timer cannot be used for Fruit &amp; Nut, Batter Bread,™ Bake Only, Dough, Pizza Dough, Bagel Dough or Jam.</em></td>
</tr>
<tr>
<td>The Breadman® stopped and &quot;0:00&quot; is flashing</td>
<td>When the Bread Baker is just plugged in, &quot;0:00&quot; flashes. To begin, press the MENU button to set the desired setting.</td>
</tr>
</tbody>
</table>
## TROUBLE SHOOTING  (continued)

<table>
<thead>
<tr>
<th>Symptom</th>
<th>Possible Solutions</th>
</tr>
</thead>
<tbody>
<tr>
<td>The Kneading Paddle was stuck in the bread</td>
<td>Make sure the Kneading Paddle is mounted properly before adding ingredients to the Bread Pan and baking. Sometimes denser or crustier loaves of bread may pull the Kneading Paddle out with them when you remove the loaves after baking. When this happens, use a non-metal utensil and gently remove the blade from the bottom of the loaf.</td>
</tr>
<tr>
<td>The bread rose too high</td>
<td>Make sure not to add too much yeast, water or flour. Too much of any of these may cause the loaf to rise more than it should.</td>
</tr>
</tbody>
</table>
| The bread didn’t rise enough  | Did you add enough yeast, water or sweetener? Make sure to add ingredients in the proper order: liquids, dry ingredients, yeast. Make sure yeast doesn’t get wet until the Breadman® mixes the ingredients together.  

**NOTE:** Typically, bread made with whole grain flours will not rise as high as bread made with refined flours. |
<p>| The dough looks like batter, or the dough ball is still sticky, not smooth and round | During the Kneading process, add 1 tablespoon of flour at a time, letting it mix in well. For most breads, your dough ball should become round, smooth, not sticky to the touch, and should bounce back when you press it with your finger. |
| The dough ball is lumpy or too dry | During the Kneading process, add 1 tablespoon of water at a time, letting it mix in well.                                                                                                                   |
| The bread didn’t rise at all   | Make sure yeast is not left out. Also check the date code on the yeast and that it is always the last ingredient put into the pan. Make sure the yeast doesn’t come into contact with salt or any liquid ingredients. |</p>
<table>
<thead>
<tr>
<th>Symptom</th>
<th>Possible Solutions</th>
</tr>
</thead>
<tbody>
<tr>
<td>The bread is caved in</td>
<td>Make sure liquids are measured correctly. Next time, reduce your liquids by 2 tablespoons. If you're adding fruits or vegetables, make sure they are well drained.</td>
</tr>
<tr>
<td>&quot;E:01&quot; is displayed and flashing</td>
<td>The Breadman® is too hot (over 100°F/38°C) to begin preparing another loaf. Remove the Bread Pan with your ingredients, and wait until the Breadman® cools down—about 20 minutes—before preparing a new loaf. The unit will tone when cool enough to restart.</td>
</tr>
<tr>
<td>&quot;E:02&quot; displays when you press START button</td>
<td>The Breadman® is too cold. Unplug the machine and allow it to heat up to room temperature, then try again.</td>
</tr>
<tr>
<td>H:00 displays and flashing</td>
<td>Oven Chamber is too warm during the rising cycle. Breadmaker could be in direct sunlight or near heat vent. Move the breadmaker to a cooler location.</td>

ONE-YEAR LIMITED WARRANTY

This Salton/MAXIM product warranty extends to the original consumer purchaser of the product.

**Warranty Duration:** This product is warranted to the original consumer purchaser for a period of one (1) year from the original purchase date.

**Warranty Coverage:** This product is warranted against defective materials or workmanship. This warranty is void if the product has been damaged by accident, in shipment, unreasonable use, misuse, neglect, improper service, commercial use, repairs by unauthorized personnel or other causes not arising out of defects in materials or workmanship. This warranty is effective only if the product is purchased and operated in the USA, and does not extend to any units which have been used in violation of written instructions furnished by Salton/MAXIM Housewares, Inc., or to units which have been altered or modified or to damage to products or parts thereof which have had the serial number removed, altered, defaced or rendered illegible. Wear and tear for Bread Pan and Paddle is not considered a manufacturer's defect.

**Warranty Disclaimers:** This warranty is in lieu of all warranties expressed or implied and no representative or person is authorized to assume for Salton/MAXIM Housewares, Inc. any other liability in connection with the sale of our products. There shall be no claims for defects or failure of performance or product failure under any theory of tort, contract or commercial law including, but not limited to, negligence, gross negligence, strict liability, breach of warranty and breach of contract.

**Warranty Performance:** During the above one-year warranty period, a product with a defect will be either repaired or replaced with a reconditioned comparable model (at Salton/MAXIM's option) when the product is returned to the Salton/MAXIM facility. The repaired or replacement product will be in warranty for the balance of the one-year warranty period and an additional one-month period. No charge will be made for such repair or replacement.

Service and Repair

Should the appliance malfunction, you should first call toll-free 1-800-233-9054 between the hours of 9:00 am and 5:00 pm Central Standard Time and ask for CONSUMER CUSTOMER SERVICE stating that you are a consumer with a problem.

**In-Warranty Service:** For an appliance covered under the warranty period, no charge is made for service or postage. Call for pre-paid return mailing label. (U.S. Customers Only)

**Out-of Warranty Service:** A flat rate charge by model is made for out-of-warranty service. Include $15.00 for return shipping and handling.

Salton/MAXIM cannot assume responsibility for loss or damage during incoming shipment. For your protection, carefully package the product for shipment and insure it with the carrier. Be sure to enclose the following items with your appliance: any accessories related to your problem; your full return address and daytime phone number; a note describing the problem you experienced; a copy of your sales receipt or other proof of purchase to determine warranty status. C.O.D. shipments cannot be accepted.

Return the appliance to:

Introduction

Since biblical times, bread has been considered “the staff of life.” Today whole grains are still recognized as the foundation of a nutritious diet. The USDA’s Food Guide Pyramid, the new food guideline that replaces the old four food groups, recommends that whole grains comprise nearly 50 percent of our daily calories. According to these guidelines, we should eat six to eleven servings of whole grains every day.

This USDA recommendation is easy to follow with your Automatic Bread Baker. Specially designed to handle whole grains, the Breadmaker bakes up deliciously healthy nutrition with just the touch of a button. And you can guarantee that your family gets only the freshest, most health-giving breads because you are in control. You choose the flour, you select the sweetener (if any), and you decide when the baking process will start. Whenever you desire, you can have an aromatic loaf of just-baked bread, bursting with all the goodness of whole grains and containing no hidden additives, saturated fats, excess sodium or refined sugars.

Let this Recipe and Menu Planner be the beginning of your health-enhancing adventures with bread baking. The suggestions provided here are just that — suggestions. Please feel free to use your imagination and enjoy experimenting with your favorite ingredients.
Health Benefits of Whole Grain Breads

Refined grains, and the products made from them, have literally been stripped of their natural goodness. Commonly listed as white flour, wheat flour or even enriched flour, refined grains are almost devoid of the fiber and important nutrients that were intact in the original grain. Besides being processed, white flour is often bleached to achieve that snow-white appearance. All this adulteration has changed a wholesome food into a food fragment containing little nutritional benefit and very little character.

Fiber-rich whole grains and whole grain flours have been the focus of many scientific studies demonstrating that they reduce the risk of diverticulosis, colon and rectal cancer, and atherosclerosis. Diets containing adequate fiber inherently tend to be lower in fat and calories, especially saturated fat and cholesterol, which may contribute to the reduced risk factor.

Fiber is the primary reason that whole grain breads and other products are so satisfying to eat. Fiber is filling, and because it contains so few calories, it is an excellent part of the low-fat, high complex carbohydrate diet recommended for better health.
Recipe Ingredients

Bread recipes begin with a very basic set of ingredients: water, flour, salt and yeast. To this short list, you can add a variety of interesting and delicious ingredients that will give your breads the individuality you are looking for. Seeds, nuts, nut butters, dried fruits, raisins, dates, apples, berries, herbs, spices, carob powder, vegetables and bran are just a few of the many ingredients you can use to create hundreds of unique and flavorful breads.

Purchase fresh ingredients whenever possible for the best taste and results. Dried foods, such as fruits, vegetables, herbs and spices will keep for a virtually unlimited time if stored in a cool, dry environment. Store produce, oils, whole grain flours and other perishable foods in the refrigerator for longer life and retention of flavor. Glass and hard plastic containers with tight fitting lids are preferable for storing most foods; they keep the aromas in but do not expose the foods to the potentially harmful ingredients found in some plastic containers. Plastic may absorb strong odors, so for spicy or pungent ingredients, always use glass.

You will probably be able to find most, if not all, of the ingredients needed for baking healthy breads at your supermarket; consumer demand has helped many grocers become more health conscious. If some of the ingredients are not available yet in your grocery store, your health food store is certain to stock them.

For understanding how bread ingredients work, read the following section.
Bread Ingredients

The only ingredients needed to make bread are: flour, water and yeast — the rest is personality. Learn a little about what each of the other ingredients add and you will be prepared to create your own delicious recipes.

Flour

**Bread Flour** Bread Flour can be used when the recipe calls for bread or all purpose flour. It has more gluten than all purpose flour and is a better choice when mixing white flour with whole grain flours. Bread flour often has ascorbic acid (vitamin C) added as a dough conditioner. This creates a larger holed grain sought by many bakers.

**All Purpose Flour** This is fine whenever the recipe calls for all white flour. It will make a smaller grained bread than bread flour. All purpose flour and bread flour are wheat flours with the bran and germ removed and B vitamins added.

**Gluten** Gluten is a mixture of proteins responsible for the elastic (glue) quality of dough. As yeast grows, it releases bubbles of carbon dioxide that become trapped by the stretchy gluten. Wheat has a high gluten content while other grains have little or none. Use it in recipes that call for whole grain flours to prevent the top of the loaf from collapsing. Buy gluten in any health food store.

**Whole Wheat** Whole wheat flour adds a nutty flavor. It also increases the nutritional and fiber content of a recipe. It has less gluten than white flour, and used alone, will create a dense loaf. Many of our recipes use a mixture of whole wheat and bread flour to create a light textured, nutritious bread.

**Other Whole Grains** Rye, buckwheat, spelt, oats and other whole grains add wonderful flavors and nutrients to bread but do not have gluten needed to rise very high. Mix 3 to 4 parts of wheat flour for each part non-wheat (or add a few Tbls. of gluten) to make sure your dough will rise.

**Eggs** Eggs add color, richness, protein and structure to bread. They also serve as a liquid. A large egg adds about 3 Tbl. of liquid, and an extra large egg, 1/4 cup (4 Tbl.) When adding or eliminating eggs, adjust the other liquids in your recipe. All the recipes given here were made with large sized eggs.

**Butter and Oil** Fats add richness to bread and keep it fresher longer, which is why breads without any butter or oil are great fresh, but get stale very fast. They also add calories — about 100 calories per loaf for every tablespoon of added fat.
Bread Ingredients (continued)

Milk    Adding milk creates a tender textured, mellower flavored bread. Yogurt, buttermilk, and sour cream make moist doughs, and add a slight tangy flavor. Milk also increases the protein content of bread. Fresh milk is fine when making recipes to start immediately. When setting the timer ahead several hours, use dry milk to prevent spoiling.

Yeast    All the recipes here use dry active yeast — the small packages contain 1 Tbl. (1/4 oz.). If you bake often, however, it is convenient to buy yeast loose in jars and measure out only the amount you need. Check expiration date before buying or using and keep yeast refrigerated or in the freezer.

Salt    Salt adds flavor to bread and tempers the rising process. If you are watching your salt intake, reduce the amount of added salt or leave it out completely. Dough, however, rises more quickly without salt, so add a bit less yeast as you reduce the salt.

Sweeteners    Yeast does not need a sweetener to rise — flour serves as its food — but it speeds up the process. Sweeteners, of course, add flavor, and keep bread moist longer. Sugar adds pure sweetness, while brown sugar, honey, maple syrup and molasses also add distinctive flavors. Molasses, the strongest flavored sweetener, is sometimes used to darken recipes.
Grain Glossary

Amaranth  This petite golden grain is moving quickly from the “unusual” grain category to one of the mainstream acceptance. A mainstay in the diet of the Aztecs, amaranth was considered a strength-giving food, probably due to its high protein profile. Both the grain and its flour offer a distinct flavor when added to your favorite bread recipes.

Barley   This grain has a hearty, earthy flavor and produces a dense loaf of bread due to its low gluten content. Barley is a good substitute for white flour in recipes, but should be cut with a lighter flour when several cups are being used at a time.

Buckwheat  Technically not a grain, buckwheat is really the fruit of a plant related to rhubarb. Its flour (ground buckwheat seed) and groats are both useful for unique bread baking. The flavor has been described as a combination of rosemary and green tea.

Corn   The only grain eaten fresh as a vegetable, corn (also known as maize) is available in a wide variety of colors. Judge the freshness of cornmeal and flour from its sweet and delicate flavor. Blue cornmeal, a beautiful hue when dry, becomes a purplish color when cooked.

Kamut   This “ancient” wheat grain is available as a whole grain, rolled grain, flour and cereal. People who are wheat sensitive have reported a tolerance to kamut products, though this is still being investigated.

Millet  Commonly used to feed birds, millet lends a delightful crunch when added in whole grain form to recipes. People who are allergic to other grains have had luck with millet. It is considered to be the most digestable grain around.

Oat   Rolled oats and oat flour are welcome additions to almost any bread recipe. Their delicately light texture and flavor embody the pleasures of home-baked goodness. Grind your own oat flour by chopping oat flakes in the blender until they reach the desired consistency.

Quinoa  This recently rediscovered grain is found in whole form, in flour and in prepared products like pasta. When added to bread recipes, it imparts an earthy flavor matched by no other grain, and it packs a protein punch.

Rye   This cold-weather grain is famous for its use in savory pumpernickel and caraway seed-rich rye breads. Rye has very little gluten and rises with the assistance of wheat flours.

Spelt   Another of the “ancient” super grains, spelt has been reintroduced with resounding success. Use it in bread recipes in place of wheat for a slightly nutty flavor.

Wheat   Wheat and whole wheat flour are the basis for most bread recipes. The gluten content of wheat provides the strength and resiliency necessary for a high and sturdy loaf.
Measuring

Measure all ingredients carefully. You will need two types of measuring cups, liquid and dry — it is very difficult to measure dry ingredients accurately with liquid measures.

**Liquid measures:** are either glass or clear plastic, graduated cups.

**Dry measures:** sell in sets of 5 nested cups (1/8, 1/4, 1/3, 1/2, and 1 cup) or 5 nested spoons (1/8, 1/4, 1/2, and 1 teaspoon, plus 1 Tablespoon).

Sample Menus Using Whole Grain Breads

Sample 1

Breakfast
Fresh orange-grapefruit juice
Slice Honey Banana Whole Wheat Bread (page 10) toasted,
with 1 tablespoon peanut butter
Banana

Mid-Morning
Slice Anadama Oatmeal Bread (page 12)
with 1 tablespoon apple butter

Lunch
Sandwich with humus, celery,
sprouts, tomato, cucumber
on Yogurt Whole Wheat Bread (page 14)

Afternoon Break
Fresh fruit or veggie sticks

Dinner
Baked potato with skin,
topped with salsa
Black bean and rice salad,
topped with chilies and tomatoes
Slice Dark Rye (Pumpernickel) Bread (page 11)
Raw mixed vegetable salad

Evening Snack
Air-popped popcorn
or fresh fruit

Sample 2

Breakfast
Fresh pineapple juice
Slice Cinnamon Raisin Bread (page 12), toasted
1/2 cup plain low or non-fat yogurt

Mid-Morning
Whole Wheat Zucchini Herb Bread (page 14)

Lunch
Wild greens salad with rice vinegar dressing
Slice Light Caraway Rye Bread (page 11)
Minestrone soup
Steamed or stir-fried vegetables

Afternoon Break
Fresh tomato-cucumber-parsley juice, with a dash of hot sauce
or lemon juice if desired

Dinner
Poached fish with lemon
Slice Seven Grain Bread (page 13)
Steamed asparagus and carrots
Fresh spinach salad

Evening Snack
Low-fat baked corn chips with salsa

Note: These bread recommendations are suggestions only. Your favorite bread recipes may be substituted in any of the above meal plans.
Please Note: The following recipes were created using the “Basic Bread” setting. Please Note – Salt and sugar should go in with water. Do not put in with yeast.

**RECIPEs**

### Basic White/French Bread

**Makes a 1-1/2 lb. loaf**

- 1-1/8 cup warm water
- 1-1/2 Tbl. vegetable oil (optional)
- 3 cups all purpose flour
- 1-1/2 tsp. salt
- 2 tsp. active dry yeast

Add all ingredients to bread pan in the order given.

**Makes a 2 lb. loaf**

- 1-1/2 cup warm water
- 2 Tbl. vegetable oil (optional)
- 4 cups all purpose flour
- 1-1/2 tsp. salt
- 2-1/2 tsp. active dry yeast

### Egg Bread

**Makes a 1-1/2 lb. loaf**

- 2/3 cup warm water
- 1-1/2 Tbl. vegetable oil
- 2 eggs
- 3 cups all purpose flour
- 2 tsp. sugar
- 1-1/2 tsp. yeast

Add all ingredients to bread pan in the order given.

**Makes a 2 lb. loaf**

- 1 cup warm water
- 2 Tbl. vegetable oil
- 2 eggs plus enough water to make 1/2 cup
- 4-1/4 cups all purpose flour
- 1 Tbl. sugar
- 2 tsp. yeast

### Variation:

**Brioche (Rich White Bread)**

Use the egg bread recipe with the following substitutions:

- Replace the water with milk
- Increase the oil (or use butter) to 2 Tbl. for 1-1/2 lb. loaf, and 3 Tbl. for the 2 lb. loaf.
- Increase the sugar to 2 Tbl. for 1-1/2 lb. loaf, and 3 Tbl. for the 2 lb. loaf.
Honey Banana Whole Wheat Bread

This delicious loaf tastes like a sweet banana bread — only much healthier — and it makes a great peanut butter sandwich.

Makes a 1-1/2 lb. loaf

1/2 cup warm water
1 Tbl. butter or vegetable oil
3 Tbl. honey
1 egg
1/2 tsp. vanilla
1 cup whole wheat flour
1-1/4 cup bread flour
1 small banana, sliced
1-1/2 tsp. poppy seeds
1/2 tsp. salt
1-1/2 tsp. dry yeast

Add all ingredients to bread pan in the order given.

Makes a 2 lb. loaf

2/3 cup warm water
1-1/2 Tbl. butter or vegetable oil
1/4 cup honey
1 egg
1/2 tsp. vanilla
1-1/2 cup whole wheat flour
1-1/2 cup bread flour
1 banana, sliced
2 tsp. poppy seeds
1 tsp. salt
2 tsp. dry yeast

Light Whole Wheat Bread

Makes a 1-1/2 lb. loaf

1-1/4 cup warm water
1 Tbl. vegetable oil
2 Tbl. honey
3/4 cup whole wheat flour
3/4 cup whole wheat pastry flour
1 cup bread flour
1/4 cup gluten
1/2 tsp. salt
1-1/2 tsp. dry yeast

Add all ingredients to bread pan in the order given.

Makes a 2 lb. loaf

1-1/2 cup warm water
1 Tbl. vegetable oil
3 Tbl. honey
1 cup whole wheat flour
1-1/4 cup whole wheat pastry flour
1-1/4 cup bread flour
1/3 cup gluten
1/2 tsp. salt
2 tsp. dry yeast
Dark Rye (Pumpernickel) Bread

Pumpernickel makes the best deli, cheese or vegetable sandwich. If you want an even darker colored bread, increase the amount of cocoa or add a teaspoon of instant espresso.

Makes a 1-1/2 lb. loaf

1-1/4 cup warm water
1 Tbl. vegetable oil
1-1/2 Tbl. molasses
1 cup rye flour
1-1/2 cup bread flour
1/2 cup whole wheat flour
1/4 cup gluten
3 Tbl. dry milk powder
1 Tbl. caraway seeds
1 Tbl. cocoa
1 tsp. salt
1-1/2 tsp. dry yeast

Add all ingredients to bread pan in the order given.

Makes a 2 lb. loaf

1-1/2 cup warm water
1-1/2 Tbl. vegetable oil
2 Tbl. molasses
1-1/2 cup rye flour
1-1/2 cup bread flour
1 cup whole wheat flour
1/3 cup gluten
1/4 cup dry milk powder
1 Tbl. caraway seeds
1 Tbl. cocoa
1-1/2 tsp. salt
2 tsp. dry yeast

Light Caraway Rye Bread

Makes a 1-1/2 lb. loaf

1 cup warm water
1-1/2 Tbl. vegetable oil
1 egg
1-1/2 tsp. sugar
1 cup rye flour
2 cups white bread flour
3 Tbl. gluten
1 Tbl. caraway seeds
1 tsp. salt
1-1/2 tsp. dry yeast

Add all ingredients to bread pan in the order given.

Makes a 2 lb. loaf

1-1/3 cup warm water
2 Tbl. vegetable oil
1 egg
2 tsp. sugar
1-1/2 cup rye flour
3 cups white bread flour
1/4 cup gluten
1 Tbl. caraway seeds
1-1/2 tsp. salt
2 tsp. dry yeast
Please Note: If your Bread Machine has a "Fruit & Nut Add-In Beeper," please add raisins when time is indicated. If your Bread Machine does not have this feature, add all ingredients to bread pan in the order given.

Cinnamon Raisin Bread

Makes a 1-1/2 lb. loaf

3/4 cup warm water
1 egg
1 Tbl. butter or vegetable oil
2-2/3 cups all purpose flour
3 Tbl. dry milk
2 Tbl. sugar
1/3 cup raisins
1-1/2 tsp. cinnamon
1 tsp. vanilla
1 tsp. salt
1-1/2 tsp. dry yeast

Makes a 2 lb. loaf

1-1/8 cup warm water
1 egg
1-1/2 Tbl. butter or vegetable oil
3-1/2 cups all purpose flour
1/4 cup dry milk
3 Tbl. sugar
1/2 cup raisins
2 tsp. cinnamon
1 tsp. vanilla
1 tsp. salt
2 tsp. dry yeast

Add all ingredients to bread pan in the order given.

Anadama Oatmeal Bread

Colonial American folk stories about the name Anadama accredit Anna’s husband for this bread. The hungry fisherman returned home to find Anna gone and a supper of cornmeal mush and molasses. The legend is he cursed her while preparing his own bread from the meal. Our version with oats, makes great sandwiches, and is terrific with chili.

Makes a 1-1/2 lb. loaf

1/4 cup oatmeal
1/8 cup cornmeal
1-1/8 cup boiling water
2 Tbl. butter or vegetable oil
2 Tbl. molasses
1 cup whole wheat flour
2 cups bread flour
1/4 cup dry milk
2 Tbl. gluten
1-1/2 tsp. salt
1-1/2 tsp. dry yeast

Makes a 2 lb. loaf

1/3 cup oatmeal
3 Tbl. cornmeal
1-1/2 cup boiling water
3 Tbl. butter or vegetable oil
3 Tbl. molasses
1-1/4 cup whole wheat flour
2-1/2 cups bread flour
1/3 cup dry milk
3 Tbl. gluten
2 tsp. salt
2 tsp. dry yeast

• Add oatmeal and cornmeal to heat-proof bowl. Pour in boiling water, stirring to prevent lumps.

• Let the mixture cool for ten minutes. Stir, pour it into the bread pan, and add the rest of the ingredients in the order given.
Seven Grain Bread

If you have a health food store nearby that sells grains and flours in bulk, it is easy to buy a small quantity of a variety of flours, and experiment. Don’t worry if you can’t find all these grains; just use more whole wheat or another grain.

Makes a 1-1/2 lb. loaf

1-1/8 cup warm water
1-1/2 Tbl. vegetable oil
2 tsp. honey
1-1/2 cup whole wheat flour
1/4 cup brown rice flour
1/4 cup spelt flour
1/4 cup buckwheat flour
1/4 cup rye flour
1/4 cup oatmeal
1/8 cup cornmeal
1/4 cup gluten
1 tsp. salt
1-1/2 tsp. dry yeast.

Makes a 2 lb. loaf

1-1/2 cup warm water
2 Tbl. vegetable oil
1 Tbl. honey
2 cups whole wheat flour
1/3 cup brown rice flour
1/3 cup spelt flour
1/3 cup buckwheat flour
1/3 cup rye flour
1/3 cup oatmeal
1/4 cup cornmeal
1/3 cup gluten
1 tsp. salt
2 tsp. dry yeast

Add all ingredients to bread pan in the order given.

Two Cheese Bread

Makes a 1-1/2 lb. loaf

2/3 cup warm water
1 Tbl. butter or vegetable oil
1 egg
2 tsp. sugar or honey
1/2 cup whole wheat flour
2-1/2 cup bread flour
1/4 cup dry milk
1 cup cheddar cheese, grated (3 oz.)
3 Tbl. Parmesan, grated (1/2 oz.)
2 tsp. sesame seeds
1 tsp. salt
1-1/2 tsp. dry yeast

Makes a 2 lb. loaf

1 cup warm water
1-1/2 Tbl. butter or vegetable oil
1 egg
1 Tbl. sugar or honey
3/4 cup whole wheat flour
2-3/4 cup bread flour
1/3 cup dry milk
1-1/3 cup cheddar cheese, grated (4 oz.)
1/4 cup Parmesan, grated (3/4 oz.)
1 Tbl. sesame seeds
1 tsp. salt
2 tsp. dry yeast

Add all ingredients to bread pan in the order given.
Whole Wheat Zucchini Herb Bread

The zucchini blends into the dough, providing half the moisture and subtle flavor. The bread is so light that a 1-1/2 lb. recipe will be the size of most 2 lb. loaves.

Makes a 1 lb. loaf

1/2 cup warm water
2 tsp. honey
1 Tbl. vegetable oil
3/4 cup zucchini, shredded (3 oz.)
3/4 cup whole wheat flour
2 cups bread flour
1/2 tsp. dried basil or rosemary or 1 tsp. fresh
2 tsp. sesame seeds
1 tsp. salt
1-1/2 tsp. dry yeast

Add all ingredients to bread pan in the order given.

Makes a 1-1/2 lb. loaf

3/4 cup warm water
1 Tbl. honey
1-1/2 Tbl. vegetable oil
1 cup zucchini, shredded (4 oz.)
1 cup whole wheat flour
2-1/2 cups bread flour
1/2 tsp. dried basil or rosemary or 1 tsp. fresh
1 Tbl. sesame seeds
1 tsp. salt
2 tsp. dry yeast

Yogurt Whole Wheat Bread

Makes a 1-1/2 lb. loaf

3/4 cup plain nonfat yogurt
1/4 cup warm water
1 Tbl. vegetable oil
1-1/2 Tbl. maple syrup
1-1/8 cup whole wheat flour
1-2/3 cup bread flour
1-1/2 Tbl. wheat germ
1 tsp. salt
1-1/2 tsp. dry yeast

Add all ingredients to bread pan in the order given.

Makes a 2 lb. loaf

1 cup plain nonfat yogurt
1/2 cup warm water
1-1/2 Tbl. vegetable oil
2 Tbl. maple syrup
1-1/2 cup whole wheat flour
2-1/4 cup bread flour
2 Tbl. wheat germ
1 tsp. salt
2 tsp. dry yeast
Sourdough

To capture the tangy flavor of sourdough bread, you need a special fermented batter. This batter called, “starter” is easy to make and keep.

Sourdough Starter

2 cups warm water  2 cups all purpose flour
1 Tbl. sugar, honey or maple syrup (optional)  1 Tbl. dry yeast

• Beat all ingredients together in a 2-quart bowl.

• Cover the bowl with a towel and place it somewhere warm. (Use a towel, not plastic wrap, to allow airborne wild yeast to enter — it will contribute to the unique character and flavor of your starter.)

• The mixture will begin to bubble within a few minutes. Initially, it will double in bulk, but as it begins to ferment, it will settle down.

• Let the mixture sit in a warm place, stirring the liquid back into the batter (as it will separate) once a day for 2-5 days. When the bubbling diminishes and it has a sour, yeasty aroma, it is ready to use.

• Stir the mixture and measure out the amount you need. It will be the consistency of pancake batter.

To keep your starter going:

• Store the finished starter in a sealed jar in the refrigerator.

• Each time you remove some starter to bake, replenish it with equal amounts of flour and water. (If you use 1/2 cup of starter, stir in 1/2 cup each of flour and water.) Then let the starter sit in a warm place for 12 hours and let the yeast bubble and grow again before returning it to the refrigerator.

• A starter can be kept indefinitely — just stir and feed it every week or two. Stirring, removing and replenishing your starter serves to feed the remaining batter.

Sourdough Bread

The yeast in a sourdough starter can replace dry yeast. But the starter yeast works much slower and is typically a three-step method, taking from 6-24 hours for the dough to rise. Our method uses the starter for flavor and adds dry yeast to speed up the process.

Makes a 1-1/2 lb. loaf

1/2 cup sourdough starter
3/4 cup warm water
2 tsp. sugar, honey or maple syrup (optional)
1 Tbl. oil (optional)
3 cups all purpose flour, or bread flour
1 tsp. salt
1-1/2 tsp. dry yeast

Add all ingredients to bread pan in the order given.

Makes a 2 lb. loaf

2/3 cup sourdough starter
1 cup warm water
1 Tbl. sugar, honey or maple syrup (optional)
1 Tbl. oil (optional)
4 cups all purpose flour, or bread flour
1 tsp. salt
2 tsp. dry yeast
The Breadman’s World Famous, All-Natural, No-Butter Cinnamon Rolls

Makes 12 rolls

Dough
3/4 plus 2 Tbl. (7 ounces) warm water
1-1/2 Tbl. canola oil
1-1/2 Tbl. honey
1/4 tsp. liquid lecithin
2 cups (9-1/2 ounces) whole wheat flour
3 Tbl. powdered whey
2 tsp. gluten flour
2 tsp. powdered egg substitute
3/4 tsp. fine sea salt
1-1/2 tsp. active dry yeast

Glaze
1/4 cup almond butter
1/4 cup canola oil
1/2 cup honey
1/2 cup powdered whey

For sprinkling on glaze
2 tsp. cinnamon
1/3 cup raisins or chopped nuts (optional)

- Put all the dough ingredients into the bread pan in the order listed. Select “Dough” setting on your machine. Press Start. When the machine beeps, remove the dough. Turn off the machine.

- Place dough on a lightly floured counter or cutting board. Flatten it out slightly and roll it into a 10-by 12-inch rectangle. Stir glaze ingredients together until smooth. Warm gently in a saucepan for a couple minutes if too stiff. Spread half the glaze over the rectangle of dough, leaving a narrow border all around. Sprinkle cinnamon and, if desired, raisins or chopped nuts over the glaze. Beginning at one long side, roll dough into a cylinder and pinch the seam to seal. Cut rolled dough into twelve 1-inch slices.

- Using canola oil, lightly oil a 10-inch round cake pan. Spread remaining glaze mixture over bottom of prepared pan. Set rolls in pan on top of glaze and cover with plastic or damp cloth. Let rolls rise in a warm place until doubled in volume, about 1 hour.

- Preheat oven to 350°F. Set pan on a baking sheet and bake on the center rack of the oven for 15 to 20 minutes. (Glaze that bubbles over the pan in the oven will spill onto baking sheet.) Invert pan onto a serving platter and let the glaze drip down sides of the rolls. Scrape any remaining glaze from pan onto rolls. Serve warm.
Pizza Dough

A 1 pound recipe makes one medium-thin 12" pizza. A 1-1/2 lb. recipe makes a 15" circle, and 2 lbs. will make 2, 12" pies.

</tbody>
</table>

Add all ingredients to bread pan in the order given.

- Set on “Dough-Only” feature if your Bread Machine is equipped with such a selection.
- When done, remove to floured board, if using immediately. Or, place in bowl greased with olive oil, turn dough over to coat it, cover with plastic wrap and refrigerate until ready to use.

Focaccio

- Pat one recipe, any size, of pizza dough into circle about 1/2 inch thick. Place on a baking sheet sprinkled with cornmeal or flour.
- Brush with olive oil and sprinkle with fresh or dried herbs (rosemary, oregano or basil), Parmesan or Romano cheese and black pepper.
- Let dough rise for 15-20 minutes and place in preheated 400°F oven until golden brown.
- **If you have a pizza peel and oven stone:** Place the shaped dough on the cornmeal sprinkled peel, add toppings, let rise, and slide onto the stone in a preheated oven.
