**Caution**

Do not place items in the top shelf, especially glasses, bottles, or dishes. If it is placed here, it may damage the door, resulting in poor performance.

**NOTE**

- When the microwave is not in use, turn off the power switch to avoid electrical consumption.
- Keep the door closed and the microwave power on when not in use.
- After use, turn the door switch to the OFF position and unplug the power cord.

**Warning**

- Do not place flammable materials near the microwave.
- Keep a minimum distance of 20 cm from the wall to allow for proper ventilation.
- Do not use the microwave for heating liquids that are not microwave-safe.
- Do not use the microwave for heating non-food items.
- Do not use the microwave for any purpose other than cooking or heating food.
MAKING DOUGH AND BAKING BREAD

Place the ingredients into the bread pan.
When you plug it in, the Breadman®...
Using The Timer

1. Position the bread in the baking pan in the Depressed Windows. Place the Depressed Windows on the left side of the oven. The Depressed Windows are located at the back of the oven. Place the bread in the Depressed Windows. Close the oven door and allow the bread to rise for 1 hour.

2. After 1 hour, remove the bread from the oven. The bread should have risen by at least 1 inch. If it has not, allow it to rise for another 30 minutes. Then, repeat steps 1 and 2 until the bread is the desired height.

Note: Do not open the oven door until the bread has risen for the full 1 hour. Opening the door will cause the bread to collapse.

3. Once the bread has risen, preheat the oven to 375°F (190°C). Bake the bread for 20 minutes. The bread should be golden brown and fully baked. If it is not, increase the baking time by 5 minutes and check again.

4. Remove the bread from the oven and allow it to cool completely. The bread is now ready to be sliced and enjoyed!
CLEANING INSTRUCTIONS

To avoid damaging the dishwasher:

1. Check that the dishwasher is empty.
2. Ensure that all items are removed before starting the dishwasher.
3. Make sure that no items are blocking the door or the detergent dispenser.

For best results:

1. Use the correct detergent and water temperature.
2. Load the dishwasher properly to ensure efficient cleaning.
3. Check that all items are securely in place and not in contact with any other items.

CAUTION:

- Do not use harsh chemicals or abrasive cleaners.
- Do not use steel wool pads or brushes.
- Do not use chlorine bleach or products containing chlorine.
- Do not use products containing ammonia.
- Do not use products containing natural or synthetic detergents.
- Do not use products containing alcohol.
- Do not use products containing hydrogen peroxide.

Specifications:

- Holding Cycle
- Fresh Food Basket
- Exterior Basket
- Interior Basket/Tray
- Front and Rear Hinges
- Front and Back Hinges
- Front and Rear Hinges
- Non-slip Basket Pan
- Adjust Doors
- 3/4 x 3/4
- 1 1/2 x 1 1/2
- 1/8 x 1/8
- Timer
- 10 minutes
- 10 to 12 hours
- Capacity (Tray)
- Power Consumption: 550 watts
- Power Requirements: 120V AC

Troubleshooting:

Possible Solutions:

- When you open the door, the basket automatically returns to its original position.

Symptom:

The basket does not return to its original position.

Steps to Fix:

1. Check the power supply and ensure it is connected properly.
2. Test the basket by manually returning it to its original position.
3. If the issue persists, contact customer support for further assistance.
